Welcome

For more than 70 years, Kube-Pak has built a strong reputation for producing one of the largest and most diverse assortments of plant material in the industry. Whether you are a greenhouse annual grower, perennial producer, vegetable farmer, cut flower grower, or specialty crop producer, we offer programs designed to support your success.

Kube-Pak has been proudly owned and operated by our family for three generations. As a true family business, we know that no two customers are alike. That's why we take the time to listen, communicate openly, and tailor our service to fit operations of every size. Our goal is simple: to earn your trust through dependable service and policies that help protect your bottom line.

Backed by decades of experience, our team combines horticultural expertise, personalized service, and an unwavering commitment to producing the high-quality plants our customers depend on.

For years, our customers have asked for a more detailed catalog featuring a wider variety of photos and descriptions of the young plants we offer. This year, we're proud to deliver on that request with the new catalog layout that follows.

Thank you for your continued partnership and trust in Kube-Pak. We appreciate your business and look forward to helping you grow another successful season.

The Swaneckamp Family

How to Read This Catalog

Every entry follows the same structure. Numbered markers key each component of this actual-size entry to the legend at right.

01

Snapdragon Twinny Appleblossom

02

SNAPDRAGON

03

Twinny

04

Butterfly double, novelty

05

Antirrhinum majus

06

Bred by Hem Zaden

07

Twinny is a butterfly-flowered snapdragon with open azalea-style blooms that read differently on the bench than traditional spikes. Compact habit gives growers a distinctive item for premium mixed containers.

08

Trays 162 · 288

09

Height 8–14" · Spread 8–12"

Full Sun · Deer Resistant

10

AVAILABLE COLORS · 6

11

Appleblossom · Bronze · Peach · Rose · Violet · Yellow Shades

01	Series photo	force-fit to its slot, center crop
02	Caption	plant name leads — Snapdragon, not Antirrhinum
03	Genus eyebrow	plant common name, section accent color
04	Series name	your scan target — the boldest element
05	Differentiator	what sets this series apart from its siblings
06	Botanical name	genus and species, italic
07	Breeder credit	who bred it — every series carries one
08	Description	1–2 sentences of marketing prose
09	Buy line	tray sizes offered
10	Grow line	height · spread · light · deer resistance
11	Available colors	ruled strip — every color always prints

VEGETABLES & HERBS READ DIFFERENTLY

Crops in Vegetables, Herb Seed and Herb Rooted Cuttings are listed by crop rather than by series: a short crop introduction, then every variety in a roster. Larger crops split into type groups.

Cantaloupe

Cucumis melo

2 VARIETIES

Vigorous melon transplants bred for early ripening and dependable sweetness. Athena is the leading Eastern shipping melon — 5–6 lb. netted fruit with firm flesh and excellent shelf life. Full Sun · Height 12–18"

ALL VARIETIES · 2

Aphrodite	75	50 · 105
Athena	70	50

SAVOY

1 VARIETY · 75 DAYS

Famosa — a savoy cabbage producing attractive 2–4 lb. heads with finely crinkled, deep blue-green leaves. Tray Sizes 162 · 288

- Crop name · botanical · count
- Crop intro, ending in grow line
- Roster of every variety
- Variety · days · tray sizes
- Type group, with its own count
- Flagship variety — own write-up

New for 2026

Every year our catalog grows, but this year's additions feel especially exciting. Among the new plants joining the lineup you'll find a miniature SunPatiens Petite, varieties boasting bigger, bolder blooms, and fresh color options that give old favorites a new look. If you love discovering something new, take a look at what we're excited about this season.

Terms, Freight & Claims

TERMS & CONDITIONS

Pricing for the 2026–2027 season is provided by quote and on the price lists for each category of material. All prices include royalty cost where applicable. For custom-grown orders, the price category is determined by the total number of plugs ordered for the season.

Our pricing is based on a count of 500 for a 512 tray, 280 for a 288 tray, 160 for a 162 tray, 100 for a 102 or 105 tray, 70 for a 72 tray, and 50 for a 51 or 50 tray. We will only consider requests for credit when the tray count falls below these quantities.

VOLUME DISCOUNTS

Kube-Pak offers volume discounts off base price according to the schedule below, by trays per year. Mums sold in our 51 split tray count as half a tray toward these discount levels.

Code 1	1–30	base
Code 2	31–100	5% off
Code 3	101–300	10% off
Code 4	301–750	15% off
Code 5	751 & up	20% off

EARLY ORDER DISCOUNT

Kube-Pak offers a 3% early order discount on all custom plug orders placed prior to November 1, 2026 with ship dates after December 1, 2026, and on all custom Mum and Aster rooted cutting orders placed prior to February 1, 2027 with ship dates after April 1, 2027.

CUSTOMER PICK UP

Our hours vary seasonally. Call 609 · 259 · 3114 to confirm your plans. We cannot process pick up orders outside confirmed pick up times.

All custom orders must be picked up or shipped in the week they are grown for, by Friday at 4:00 pm. Orders not picked up by this time incur a holding fee of \$5.00/tray. Ready Bay orders must also be picked up by Friday at 4:00 pm or the order will be cancelled.

CANCELLATIONS

Cancellations for custom material will not be accepted once the order has been sown.

PAYMENT TERMS

Net 30 days for established accounts — all others C.O.D. Past due accounts will be charged 1% per month on the unpaid balance. All late charges must be paid in full.

WARRANTY AND LIMITATIONS ON LIABILITY

We warrant that the material sold is as described on the container, within recognized tolerances. We give no other or further warranty, express or implied, and all other or further warranties, including any warranty of merchantability, fitness for a particular purpose, or otherwise, are excluded. Our liability on this warranty is limited in amount to the purchase price of the material, regardless of the nature, cause, or extent of any loss. In no event will our liability extend to incidental, consequential or special damages or for loss of crops or for loss of profits.

Quoted prices do not include freight costs. Freight is billed in addition to your plug price.

KUBE-PAK GROWER TRUCK

Kube-Pak offers truck delivery throughout the Northeast & Mid-Atlantic regions. Thanks to our heated trucks and experienced drivers, the quality of your plants remains as high as when they left our greenhouse.

Truck deliveries are scheduled based on volume by location; truck delivery requests are not guaranteed. If we are not in your area for your ship week, we will ship your material via FedEx.

TRUCK FREIGHT

Freight is quoted, not listed.

Truck rates are F.O.B. Allentown, NJ and bill per tray by distance, with a minimum charge per delivery. Current rates — truck and FedEx — come with your price quote,

along with any carrier surcharges in effect. Ask your rep.

FEDEX

If orders cannot ship via Kube-Pak Grower Truck we use FedEx Ground and Air service. Customers in the Ground 1- and 2-day service areas ship Ground; customers outside these areas ship FedEx 2nd Day Air unless weather requires Next Day Air. Air charges are the FedEx Air freight charge plus a boxing charge — see the Shipping & Boxing guide on the facing page.

For orders of 30 trays or more that cannot ship via Grower Truck, FedEx Less-Than-Trailer-Load (LTL) freight may provide improved rates. Call for details.

PHYTOSANITARY CERTIFICATE

For states requiring a phytosanitary certificate for plugs shipping from New Jersey, a \$75 fee is added to cover administrative and inspection costs.

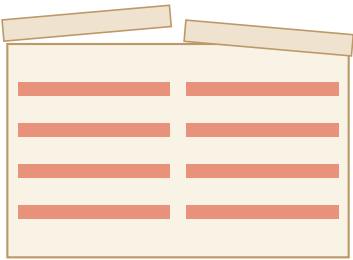

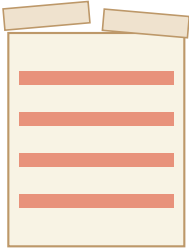

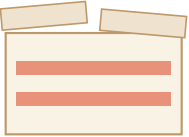

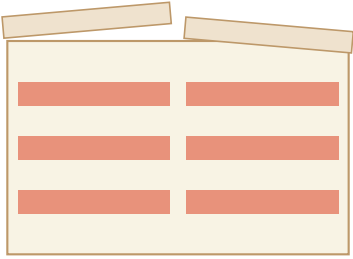

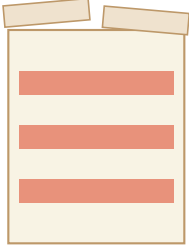

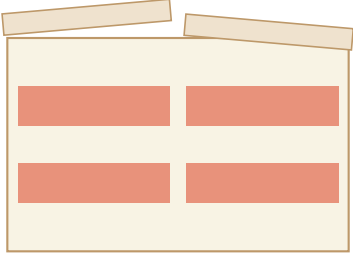

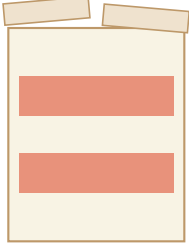

FILING CLAIMS

To assist in the speedy resolution of your claim for lost or damaged material:

- Send all claim requests to claims@kubepak.com.
- All claims must be made within 48 hours of receipt to be eligible.
- Include the name & phone of the person filing plus customer contact information.
- Preliminary claims must be finalized within 30 days or they are closed.
- Claims are considered for credit only; replacements are a separate order.
- Impatiens Downy Mildew claims are honored only within 48 hours of receipt.
- For Grower Truck claims, have the driver call our office before leaving. Deliveries are not made to unattended locations without prior permission.
- For FedEx claims, inspect all merchandise on receipt; report visible carton damage before signing if possible, and keep damaged packaging for carrier inspection.
- Zinnia plugs are fragile and do not box well — no claims honored on boxed Zinnias.
- Orders picked up at Kube-Pak must be checked for accuracy and quality before leaving.

Shipping & Boxing

Boxed delivery from Kube-Pak goes via FedEx in three box sizes. Use this guide to work out how many trays will fit in each of our shipping boxes. Freight is quoted separately — see your price quote for current rates.

TRAY SIZE	LARGE BOX 24 × 25 × 13 in.	MEDIUM BOX 24 × 13 × 11 in.	SMALL BOX 24 × 13 × 6 in.
512 · 288	 8 trays	 4 trays	 2 trays
162 · 105 · 102	 6 trays	 3 trays	 1 tray
72 · 50	 4 trays	 2 trays	 1 tray

Cartons drawn front-on: box width across, box height up — all three are 24 in. deep. The large box is twice the medium's width, which is where its second sleeve goes; the small box is a little over half the medium's height, which is why its stacks are shorter.

HOW BOXING WORKS

Plug trays are packed into a sleeve before boxing to protect the material during shipping.

Large boxes hold two sleeves across; small and medium boxes hold one. Sleeves are stacked depending on tray size and the height of the material.

51 trays are the same size as 102 trays but are split in half lengthwise — two 51 trays fit one sleeve.

72 and 50 trays share our largest cell depth and the plugs are typically taller, so fewer sleeves of them stack in a box.

HOW FREIGHT IS CALCULATED

Ground shipments bill at a flat rate per box. Air shipments bill the FedEx Air freight charge plus a boxing charge.

Freight is quoted, not printed here — your rep sends current truck and FedEx rates with your price quote.

Shipping on a broker's FedEx account? Contact your broker directly. All freight is subject to carrier surcharges.

ANNUAL SEED

Kube-Pak is a leader in seed-grown crops, offering one of the largest selections on the East Coast. Backed by dependable quality and consistent availability, these proven varieties help growers produce exceptional crops season after season.

Impatiens Beacon Blue Pearl

AGERATUM

Aloha

Vigorous, pack-and-pot mounds

Ageratum houstonianum

Bred by Hem Zaden

Aloha is an early-flowering, vigorous ageratum suited for growing in packs and pots. Strong garden vigor and uniform mounding habit translate to lower shrink. An efficient crop great for garden beds, borders, and landscape.

Tray Sizes: 105 • 162 • 288 • 512

Height 6-10" • Spread 8-10"

Full Sun to Part Sun • Deer Resistant

AVAILABLE COLORS

Blue • White

AGERATUM

Kona

Ultra-compact, shelf-holding

Ageratum houstonianum

Bred by Hem Zaden

Kona is an ultra-compact ageratum. At just 6-8" tall it holds its compact form longer than taller types. Early flowering and strong pack-to-garden performance make it an excellent choice for spring programs.

Tray Sizes: 105 • 162 • 288 • 512

Height 6-8" • Spread 8-10"

Full Sun to Part Sun • Deer Resistant

AVAILABLE COLORS

Blue • White

AGERATUM

White Bouquet NEW

Tall, fluffy white clusters

Ageratum houstonianum

Bred by Select Seeds

White Bouquet is a clean white ageratum bearing fluffy flower clusters on compact, uniform plants, a fresh alternative to the usual blues for beds and edging.

Tray Sizes: 162

Height 18-24" • Spread 8-12"

Full Sun to Part Sun • Deer Resistant

ALTERNANTHERA**Purple Prince****Burgundy vertical foliage accent***Alternanthera brasiliana**Bred by PanAmerican Seed*

Purple Prince offers intense purple and burgundy foliage with vigorous upright growth — an effective vertical accent for landscape programs and large containers. Heat-tolerant and low-maintenance through the season, it holds consistent foliage color from transplant through fall.

Tray Sizes: 105 • 162 • 288

Height 18-24" • Spread 12-18"

Full Sun to Part Sun

ALYSSUM**Clear Crystal****Vigorous, larger fragrant blooms***Lobularia maritima**Bred by PanAmerican Seed*

Clear Crystal is more vigorous with fragrant, larger blooms than standard alyssum. It gives a stronger performance in containers, hanging baskets and in-ground plantings and this cool-season crop can be planted with minimal need for supplemental heat for spring programs.

Tray Sizes: 105 • 162 • 288 • 512

Height 8-10" • Spread 12-16"

Full Sun to Part Sun •

Deer Resistant

AVAILABLE COLORS

Lavender Shades • Mix •
Purple Shades • White

Easter Bonnet**Uniform compact edging***Lobularia maritima**Bred by PanAmerican Seed*

Easter Bonnet offers a full color range with a uniform, compact habit. Studded with dainty, fragrant flowers, these plants maintain a tidy look making them excellent edging plants.

Tray Sizes: 162 • 288 • 512

Height 3-4" • Spread 8-10"

Full Sun to Part Sun •

Deer Resistant

AVAILABLE COLORS

Deep Pink • Deep Rose • Mix •
Violet • White

Wonderland**Spreading, saturated colors***Lobularia maritima**Bred by Benary*

Wonderland's compact, spreading habit and short crop time make it one of the most efficient alyssums for plant production. Rich, saturated colors — from true blue to deep rose — hold their intensity across the season, and flowering is uniform across the series.

Tray Sizes: 162 • 288 • 512

Height 3-4" • Spread 8-10"

Full Sun to Part Sun •

Deer Resistant

AVAILABLE COLORS

Blue • Deep Purple • Deep Rose •
Lavender **NEW** • White

AMARANTHUS**Carnival****Variegated tricolor foliage***Amaranthus tricolor*

Carnival's variegated foliage combines shades of red, yellow, and bronze for bold landscape impact. Heat-tolerant and easy to establish, it's a reliable choice for summer landscape and containers.

Tray Sizes: 288

Height 24-48" • Spread 12-18"

Full Sun

Coral Fountain**Cascading coral-red plumes***Amaranthus caudatus**Bred by Takii*

Coral Fountain produces cascading coral-red plumes well-suited for cut flower programs. Exceptional heat and drought tolerance supports growth through the summer season.

Tray Sizes: 162 • 288

Height 36-48" • Spread 18-24"

Full Sun

Early Splendor**Chocolate leaf, crimson plumes***Amaranthus caudatus*

Early Splendor combines rich chocolate foliage with brilliant crimson plumes. Excellent vase life in both fresh and dried arrangements makes it a versatile option for growers supplying floral, landscape, and container programs.

Tray Sizes: 288

Height 36-48" • Spread 18-24"

Full Sun

**Alternanthera Purple Prince****Alyssum Clear Crystal Mix****Alyssum Easter Bonnet Mix****Amaranthus Early Splendor****Amaranthus Carnival**

Amaranthus Hot Biscuits

Amaranthus Love Lies Bleeding

Asparagus Fern Fuzzyfern Frizz

Amaranthus Velvet Curtains

Angelonia Serena Blue

AMARANTHUS

Hot Biscuits

Golden plumes, dried floral

Amaranthus caudatus

Bred by Takii

Hot Biscuits carries distinctive golden plumes providing texture and depth of color for dried and fresh floral programs. Ideal for specialty and cut-flower growers.

Tray Sizes: 105 • 162

Height 36-48" • Spread 18-24"

Full Sun

Love Lies Bleeding

Long trailing crimson tassels

Amaranthus caudatus

Love Lies Bleeding carries the long, cascading crimson tassels the species is grown for. A consistent performer across cut flower, dried arrangement, and specialty landscape programs.

Tray Sizes: 288

Height 36-48" • Spread 18-24"

Full Sun

Splendid Perfection

Red-orange plumes, large plants

Amaranthus caudatus

Splendid Perfection throws bold red and orange plumes on large, heat-tolerant plants. A dependable cut flower and landscape crop with strong summer performance.

Tray Sizes: 162 • 288 • 512

Height 36-48" • Spread 18-24"

Full Sun

Velvet Curtains

Deep burgundy, premium cut

Amaranthus caudatus

Bred by Takii

Velvet Curtains produces deep burgundy-red plumes with exceptional color depth — a premium choice for cut flower programs and high-impact landscape installations.

Tray Sizes: 288

Height 36-48" • Spread 18-24"

Full Sun

ANGELONIA

Serena

Branched, full mounding habit

Angelonia angustifolia

Bred by PanAmerican Seed

Serena's well-branched plants finish compact and full lending unique dimensional color to gardens, landscapes, and mixed containers. A carefree and continuous bloomer, Serena performs well under a wide range of conditions.

Tray Sizes: 105 • 162 • 288

Height 10-14" • Spread 10-12"

Full Sun • Deer Resistant

AVAILABLE COLORS

Blue • Magenta **NEW** • Mix • Purple • Rose • Waterfall Mix • White

Serenita

Shorter, height-controlled

Angelonia angustifolia

Bred by PanAmerican Seed

Serenita matches Serena's popular attributes in a shorter, more compact package — the right choice where height control matters. A peak performer in both hot and humid conditions.

Tray Sizes: 105 • 162 • 288

Height 8-12" • Spread 8-10"

Full Sun • Deer Resistant

AVAILABLE COLORS

Cherry **NEW** • Mix • Pink **AAS 2014** • Purple • Raspberry • Sky Blue • White

ASPARAGUS FERN

Fuzzyfern Frizz

Fine-textured, sun or shade

Asparagus plumosus

Bred by PanAmerican Seed

Fuzzyfern Frizz offers fine-textured bright green foliage, a unique accent for both shade and sun, mixed baskets, and specialty containers.

Tray Sizes: 162

Height 12-24" • Spread 12-18"

Part Sun to Shade

BEGONIA

Ambassador

Compact landscape workhorse

Begonia semperflorens

Bred by Sakata

Ambassador couples reliable performance with a compact, uniform mounding habit. A versatile color range from soft pink through scarlet makes it a dependable choice for large-scale landscape programs.

Tray Sizes: 162 • 288 • 512Height 8-10" • Spread 8-10"
Part Sun

AVAILABLE COLORS

Bicolor • Mix • Pink • Rose • Scarlet • White

Baby Wing

Large spreading angel-wing

Begonia semperflorens

Bred by PanAmerican Seed

Baby Wing's large, spreading habit and abundant bloom production make it ideal for both landscape and container programs. Available in both green and bronze leaf forms across a broad color range. Exceptional heat and rain tolerance keeps performance strong throughout the season.

Tray Sizes: 105 • 162 • 288Height 10-14" • Spread 12-16"
Part Sun

AVAILABLE COLORS

Bicolor • Mix • Pink • Red • Red Bronze Leaf • White • White Bronze Leaf

Bada Bing

Green-leaf, early uniform

Begonia semperflorens

Bred by Syngenta Flowers

Bada Bing flowers early and uniformly on a compact, well-branched habit suited to high-density production. Green foliage provides a uniform backdrop to pops of color in pinks, white and scarlet providing broad market appeal. Offers reliable performance in variable weather conditions.

Tray Sizes: 162 • 288 • 512Height 10-14" • Spread 10-14"

Bada Boom

Bronze-leaf, sun-tolerant

Begonia semperflorens

Bred by Syngenta Flowers

Bada Boom brings the same early, uniform flowering as its green-leaf companion on bronze foliage that stands up to full sun and summer heat. The dark leaves set off blooms in pink, rose, scarlet and white for strong landscape and pack appeal. Compact, well-branched plants deliver dependable garden performance in variable weather.

Asian Garden **AAS 2017**

Tall pink-purple spires

Celosia argentea

Bred by Murakami Seed

Asian Garden sends up tall, sturdy spires of bright pink-purple plumes. Strong branching builds a full habit, and long stems suit both fresh-cut programs and landscape plantings. Extended bloom window holds color into fall.

Tray Sizes: 162 · 288

Height 10-18" · Spread 8-12"

Full Sun · Deer Resistant

Bright Sparks

Extra-branched, fade-resistant

Celosia argentea

Bred by Syngenta Flowers

Bright Sparks excels with large plumes, very well-branched habit and great heat tolerance. The extra branching puts more flowers on every plant, and the bloom size of secondary flowers matches the initial flower. Flowers are less prone to fading than similar types, assuring long-lasting displays.

Rubenza

Rare ruby-red cut

Cosmos bipinnatus

Rubenza produces rich ruby-red flowers that develop into deep rose. A rare deep-color cosmos that fills the color gap in standard pink/white mixes. Strong stems with branching basal structure support continuous cut harvests through frost. Holds color in summer heat and offers strong pollinator appeal in farm-direct cut programs.

Gomphrena Ping Pong Lavender

GOMPHRENA**Ping Pong**

Extra-large ball blooms

*Gomphrena globosa**Bred by Sakata*

Ping Pong produces unusually large, ball-shaped blooms on vigorous plants — a natural for cut programs and bold landscape plantings. Well-branched plants keep producing through heat with minimal maintenance.

Tray Sizes: 105 • 162

Height 20-28" • Spread 12-16"

Full Sun • Deer Resistant

AVAILABLE COLORS

Lavender • Mix • Purple • White

Strawberry Fields

True strawberry-red globes

Gomphrena haageana

Strawberry Fields bears true strawberry-red globes on tall stems — striking in the landscape and excellent as a fresh or dried cut. Outstanding heat and drought tolerance keeps color coming all summer.

Tray Sizes: 50 • 105 • 162 • 288

Height 18-24" • Spread 12-16"

Full Sun • Deer Resistant

Gomphrena Strawberry Fields

GYSOPHILA**Covent Garden**

Classic annual cut filler

Gypsophila elegans

Covent Garden is the classic annual baby's breath — airy clouds of small white blooms. A fast, low-input crop and a dependable cut-flower filler that complements virtually any bouquet.

Tray Sizes: 105

Height 18-24" • Spread 10-14"

Full Sun • Deer Resistant

AVAILABLE COLORS

ORNAMENTAL OREGANO

Kirigami

Papery pink hop-like bracts

Origanum rotundifolium

Oregano Kirigami is an ornamental oregano with arching stems of hop-like, papery bracts in pink-rose tones over silvery-blue foliage. The compact mounding habit fits small pots through gallon programs and adds unusual textural interest for mixed-container builds.

Black Pearl **AAS 2006**

Jet-black leaf and fruit

Capsicum annuum

Bred by PanAmerican Seed

Black Pearl boasts jet-black glossy foliage and round black peppers that ripen to fiery red. Dramatic color contrast carries the plant through summer and into fall. Heat-tolerant 4-inch and gallon crop with multi-season interest.

Tray Sizes: 105 · 162 · 288

Height 12-24" · Spread 10-18"

Full Sun · Deer Resistant

Calico

Tricolor variegated foliage

Capsicum annuum

Bred by PanAmerican Seed

Calico is a variegated ornamental pepper with tricolor green, creamy-white, and purple foliage. Foliage interest extends well past bloom, carrying the plant through late summer and fall beyond standard annual programs.

Tray Sizes: 162 · 288

Height 12-24" · Spread 10-18"

Full Sun · Deer Resistant

Chilly Chili **AAS 2002**

Green-to-red color progression

Capsicum annuum

Bred by PanAmerican Seed

Chilly Chili progresses from greenish-yellow through orange to deep red, building visual interest over weeks. A reliable specialty crop for indoor and outdoor programs.

Tray Sizes: 105 · 162 · 288

Height 12-24" · Spread 10-18"

Full Sun · Deer Resistant

ANNUAL SEED

ORNAMENTAL PEPPER

Cupala

Lime-to-red, clean finish

Capsicum annuum

Bred by PanAmerican Seed

Cupala is an ornamental pepper producing lime-colored fruit that matures to red, holding sharp color from late summer through fall. Strong outdoor performance and clean finish make it a dependable late-season specialty crop.

Tray Sizes: 288

Height 12-24" · Spread 10-18"

Full Sun · Deer Resistant

Harlequin

Multi-colored fruit clusters

Capsicum annuum

Bred by PanAmerican Seed

Consistent branching at finish reduces shaping labor and holds habit tight through 4- to 6-inch pots and mixed fall containers.

Tray Sizes: 288

Height 12-24" · Spread 10-18"

Full Sun · Deer Resistant

Hot Pops

Round multicolor, compact

Capsicum annuum

Bred by PanAmerican Seed

Heavy branching holds shape through finish, and it programs cleanly as a stand-alone 4-inch single variety or a fall mixed-container component.

Tray Sizes: 105 · 162 · 288

Height 6-10" · Spread 6-10"

Full Sun · Deer Resistant

AVAILABLE COLORS

Purple · Yellow

Joker

Cayenne-red, single-color

Capsicum annuum

Bred by PanAmerican Seed

Joker sets slender, fiery-red cayenne-style fruit held high above dark green foliage — a strong choice when growers want a single-color red statement for fall mixed pots. Compact, well-branched habit packs out even and holds condition through the autumn crop.

Tray Sizes: 288

Height 12-24" · Spread 10-18"

Full Sun · Deer Resistant

Medusa

Dwarf, upward ivory-to-red

Capsicum annuum

Bred by PanAmerican Seed

Medusa is a naturally dwarf, prolific selection that carries upward-facing fruit in shades of ivory, yellow, orange, and bright red. Dark, heat-tolerant foliage means low maintenance through summer production, and the compact habit makes it well suited to 4-inch pot programs and fall mixed-container components.

Tray Sizes: 105 · 162 · 288

Height 12-24" · Spread 10-18"

Full Sun · Deer Resistant

Midnight Fire

Dark foliage, bright fruit

Capsicum annuum

Bred by PanAmerican Seed

Midnight Fire pairs dark stems and foliage with bright fruit for high-contrast fall color. Use as a thriller in larger combination planters or program straight through as a stand-alone pot — performance holds through warm-weather finishing and into autumn.

Tray Sizes: 105 · 162 · 288

Height 12-24" · Spread 10-18"

Full Sun · Deer Resistant

NuMex Easter AAS 2014

Pastel spring-color fruit

Capsicum annuum

NuMex Easter is a compact ornamental pepper with upright, bullet-shaped fruit transitioning through pastel lavender, yellow, orange, and red. A strong differentiator for spring and early summer; finishes cleanly in 4- to 6-inch pot programs.

Tray Sizes: 105 · 162 · 288

Height 12-24" · Spread 10-18"

Full Sun · Deer Resistant

Onyx

Black-to-orange, heat-tolerant

Capsicum annuum

Bred by Takii

Onyx produces round fruit that starts purple/black and matures to shades of orange and red. Onyx has extreme heat tolerance, and the fruit holds color over a long period.

Tray Sizes: 162 · 288

Ornamental Pepper Santos Orange

Ornamental Pepper Sedona Sun

ORNAMENTAL PEPPER

Purple Flash

Purple-flecked near-black leaf

*Capsicum annuum**Bred by PanAmerican Seed*

Purple Flash is grown as much for its foliage as its fruit — bright purple flashes scattered across nearly-black leaves with small, glossy black peppers held in the canopy. Exceptional heat tolerance makes this a reliable summer-into-fall performer in 4-inch pot programs and a high-contrast thriller component in mixed containers.

Tray Sizes: 105 • 162 • 288

Height 12-24" • Spread 10-18"

Full Sun • Deer Resistant

Salsa

Heavy long-lasting fruit load

*Capsicum annuum**Bred by PanAmerican Seed*

Salsa carries a heavy load of bright, long-lasting ornamental fruit on a tight, well-branched plant — color holds through the season without fade or drop. The compact habit programs cleanly into 4- to 5-inch pot lines and adds reliable fall color to mixed combination plantings.

Tray Sizes: 162 • 288

Full Sun • Deer Resistant

AVAILABLE COLORS

Dark Orange • Purple • Red • Yellow • Yellow Red

Sangria

Edible-decorative cayenne

*Capsicum annuum**Bred by PanAmerican Seed*

Sangria carries cayenne-shaped fruit boasting a continuous display of both purple and red peppers. This pepper performs well all summer with consistent quality and a steady fruit load that carries through the fall window.

Tray Sizes: 105 • 162 • 288

Height 12-24" • Spread 10-18"

Full Sun • Deer Resistant

Santos

Slender fruit, programmable pots

*Capsicum annuum**Bred by PanAmerican Seed*

Santos sets slender fruit on a compact plant — schedules cleanly into 4- to 4.5-inch single-plant pot programs, or 6.5- to 7.5-inch pots at three plants per pot for fuller combination components. Uniform habit and bright fruit make it a programmable choice for fall mixed-pot lines.

Height 8-12" • Spread 8-10"

Full Sun • Deer Resistant

AVAILABLE COLORS

Orange • Red

Sedona Sun

Orange-yellow, long display

*Capsicum annuum**Bred by PanAmerican Seed*

Sedona Sun loads compact plants with masses of bright orange-yellow upright fruit that gain a red blush before maturing to dark red — a long display window from mid-summer through mid-fall. Well-suited to 4- to 6-inch pot programs and an easy single-variety option for autumn end-cap color.

Tray Sizes: 162 • 288

Height 12-24" • Spread 10-18"

Full Sun • Deer Resistant

ANNUAL SEED

ORNAMENTAL PEPPER

Wicked

Purple-red two-tone clusters

Capsicum annuum

Bred by PanAmerican Seed

Wicked carries upright clusters of purple and red fruit above glossy green foliage for a bold, two-tone show. The bushy, well-branched habit fills 4- and 5-inch pots without aggressive shaping, and the fruit holds through warm-season production and into fall.

PANSY

Atlas Black

True black novelty pansy

Viola wittrockiana

Bred by Benary

Atlas Black is a true black-flow-ering pansy that holds its color cleanly through cool-season production — a strong contrast element when combined with brights like yellow, orange, or white in fall and spring mixed pots. Uniform finishing and a programmable habit make it a usable specialty option without disrupting standard pansy schedules.

Blueberry Thrill

Stand-alone, no-cool flowering

Viola wittrockiana

Bred by Sakata

Blueberry Thrill is a stand-alone pansy variety that is special enough to hold its own as a distinct offering in your assortment. This large flowered, early flower- ing, uniform and non-stretching pansy does not require cool temperatures to initiate flower buds. Blueberry Thrill blooms continuously and maintains a compact habit from autumn through early spring.

PANSY

Matrix

Viola wittrockiana

Bred by PanAmerican Seed

Every color ships the same week — Matrix turns fall pansy production from a scramble into a schedule.

Matrix is a great option for longer days and warmer growing — its uniformity of timing and plant habit can't be beaten by any other variety in the marketplace.

Matrix has a tight bloom window in autumn production that lets every color ship the same week, meaning less handling, less waste, and exceptional holding power for higher profitability.

PETUNIA

Tritunia

Earliest traditional, wide range

Petunia hybrida

Bred by Syngenta Flowers

Tritunia is the earliest-flowering traditional Petunia, especially under short-day conditions — a key advantage for early spring programs. The widest color range in the category combines with a tight flowering window for clean scheduling across packs and pots. Blooms are large and showy across the range.

SUNFLOWER

Always Sunny NEW

Well branched, strong stemmed
Helianthus annuus

Tall and strong-stemmed, these golden-yellow flowers with dark centers keep coming all season on highly branched plants for a strong display in landscapes and gardens. More compact in the greenhouse for easier production. Well-branched plants don't need to be pinched for a fast finish.

Tray Sizes: 105 · 162

Ballad

Branching pollenless cut
Helianthus annuus

Bred by PanAmerican Seed

Ballad is a branching pollenless sunflower bred for cut production. Plants throw multiple usable stems from a single plug, extending harvest windows compared to single-stem types. The pollenless flowers protect from staining, making this a fit for growers serving high-volume channels with quality cut sunflowers.

Tray Sizes: 105 · 162

Height 48-72" · Spread 14-20"

Fishnet Stockings**Chartreuse, burgundy veining***Coleus scutellarioides*

Fishnet Stockings is the novelty standout: chartreuse-green leaves laced with bold burgundy veining like its namesake. The graphic pattern draws attention in combos and shade plantings.

Tray Sizes: 102Height 12-20" · Spread 12-18"
Part Sun**Flamingo****Magenta center, purple margin***Coleus scutellarioides*

Vivid magenta-pink leaf centers framed by deep purple margins deliver a bold, high-contrast statement that reads from a distance — a saturated counterpoint in mixed combos. Compact-mounded habit finishes uniformly in 4.5-inch and gallon containers with minimal pinching. A flexible filler for shaded mixed assortments and high-impact container programs.

Tray Sizes: 102Height 12-20" · Spread 12-18"
Part Sun**Gay's Delight****Apple-green, purple midrib***Coleus scutellarioides*

Gay's Delight splits bright apple-green foliage with a vivid purple midrib, a cheerful, time-tested color break. Compact, well-branched plants finish tidy and full.

Tray Sizes: 102Height 12-20" · Spread 12-18"
Part Sun**Great Falls****Trailing basket spiller***Coleus scutellarioides**Bred by Dümmer Orange*

Great Falls is a trailing-habit coleus series, distinct from typical mounded coleus selections. Strong performer in hanging baskets and large mixed combo containers as a foliage spiller component. Sun and shade tolerant with late flowering for extended display.

Tray Sizes: 102Height 10-16" · Spread 24-36"
Part Sun**AVAILABLE COLORS**

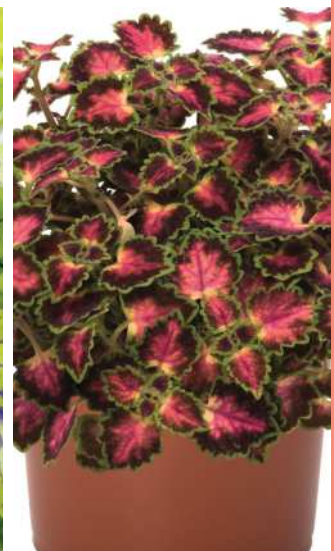

Angel · Iguazu · Niagara · Yosemite

Kingswood Torch**Magenta, maroon margin***Coleus scutellarioides*

Kingswood Torch blazes in fiery magenta-pink framed by a dark maroon margin — one of the boldest statements in the line. Heat-tolerant and vigorous for high-impact landscape color.

Tray Sizes: 102Height 12-20" · Spread 12-18"
Part Sun**Luminesce****Iridescent rose over green***Coleus scutellarioides**Bred by Dümmer Orange*

Serrated green leaves washed with iridescent rose-pink and cream and tinged dark red — a near-psychedelic, watermelon-toned leaf that stands out in mixed combos. Strong basal branching fills 4.5-inch and gallon containers evenly. Holds color in higher light, broadening placement flexibility.

COLEUS

Royalty**Maroon leaf, hot-pink veins***Coleus scutellarioides**Bred by Dümmer Orange*

The high-contrast pattern anchors combos and reads from a distance, and vigorous growth finishes evenly in 4.5-inch and gallon programs. Sun tolerant and slow to bolt, holding clean foliage through the peak season.

Tray Sizes: 102Height 12-20" · Spread 12-18"
Part Sun**Rustic Orange****Coppery rust, heat-loving***Coleus scutellarioides*

Rustic Orange glows in warm, coppery rust tones that shine in fall-themed combinations and landscape beds. Heat-loving, uniform, and dependable all season.

Tray Sizes: 102Height 12-20" · Spread 12-18"
Part Sun**Saturn****Ringed heirloom pattern***Coleus scutellarioides*

Classic ringed pattern with deep burgundy centers and a serrated chartreuse halo — one of the most recognizable heirloom forms in the category and a dependable choice for traditional assortments. Vigorous upright habit fills 4.5-inch and gallon containers quickly without aggressive pinching. Slow to flower, holding ornamental shape through summer.

Tray Sizes: 102Height 12-20" · Spread 12-18"
Part Sun**Skeletal****Narrow strap-leaf form***Coleus scutellarioides**Bred by Kientzler*

Narrow, deeply cut strap-like leaves in chartreuse and burgundy — a lacy, sculptural alternative to broad-leaf coleus. A compact mound that grades out even across 4.5-inch and gallon containers. A specialty offering for growers building assortments around texture and unusual form.

Tray Sizes: 102Height 12-20" · Spread 12-18"
Part Sun**Solar Sunrise****Sunrise tones, sun-tolerant***Coleus scutellarioides*

Solar Sunrise layers warm sunrise tones of rose, gold, and green on a strongly sun-tolerant frame bred for landscape performance. Vigorous and well-branched for mass color.

Tray Sizes: 102Height 12-20" · Spread 12-18"
Part Sun**Songbird****Painterly heirloom mix***Coleus scutellarioides*

Heirloom selection with finely patterned multi-color variegation — green, cream, rose, and burgundy in a painterly mix. Compact bushy habit finishes well — a strong specialty performer where heirloom provenance matters.

Tray Sizes: 102Height 12-20" · Spread 12-18"
Part Sun**Talavera****Bold multi-tone splash***Coleus scutellarioides**Bred by Syngenta Flowers*

Talavera shows bold, multi-tone splashed coloration evocative of the Mexican pottery it is named for — high-contrast looks across the color range. The mound holds its shape in 4.5-inch and gallon programs. Late flowering preserves foliage interest deep into summer.

FUCHSIA

Blue Eyes**Crimson-violet double trailer***Fuchsia x hybrida*

Double blooms with crimson sepals folded back from frilled violet-blue petticoats — Blue Eyes is one of the showiest classic trailing fuchsias for shaded baskets and porch combos. Strong basal branching finishes a full 10" basket in 8–9 weeks. Holds up through humid summers in part shade.

Tray Sizes: 102Height 10-18" · Spread 12-18"
Part Sun to Shade**Dark Eyes****Red-and-violet bicolor***Fuchsia x hybrida*

Dark Eyes is the rich bicolor fuchsia, pairing deep red sepals with a violet-blue double skirt for classic hanging-basket drama. Vigorous and free-flowing in shade through the season.

Tray Sizes: 102Height 10-18" · Spread 12-18"
Part Sun to Shade**Dollar Princess****Compact heirloom, early***Fuchsia x hybrida*

Dollar Princess is the compact, heavy-blooming heirloom fuchsia — cerise-red sepals over a tidy purple double, dependable in shade baskets and porch pots. Early and prolific.

Tray Sizes: 102Height 10-18" · Spread 12-18"
Part Sun to Shade**Gartenmeister****Upright, sun-tolerant tubular***Fuchsia x hybrida*

An upright, hummingbird-magnet fuchsia grown for narrow tubular coral-orange flowers and bronze-tinted foliage. Gartenmeister tolerates more heat and direct sun than typical trailing fuchsias, making it a useful thriller for sun-shade transitional displays and patio pots. Strong vertical habit anchors mixed containers cleanly.

Tray Sizes: 102Height 10-18" · Spread 12-18"
Part Sun to Shade**Marinka****Single-red trailing benchmark***Fuchsia x hybrida*

The benchmark single-red trailing fuchsia for baskets — Marinka holds heavier bud loads than most cultivars and tolerates more heat without flower drop. Glossy, dark-green foliage frames the rich red flowers.

Tray Sizes: 102Height 10-18" · Spread 12-18"
Part Sun to Shade**Southgate****Pastel pink double***Fuchsia x hybrida*

Soft pink double blooms with deeper rose sepals on a semi-trailing habit — Southgate is the pastel counterpoint to Swingtime for spring basket programs. Branches freely and finishes uniformly without aggressive pinching. The fully-double flower form is consistent across the crop.

Tray Sizes: 102Height 10-18" · Spread 12-18"
Part Sun to Shade**Swingtime****Red-and-white bicolor***Fuchsia x hybrida*

Swingtime is the showy bicolor fuchsia, brilliant red sepals over a full white double skirt for unmistakable basket impact. Vigorous and continuously flowering in shade.

Tray Sizes: 102Height 10-18" · Spread 12-18"
Part Sun to Shade**Trailing Lena****Blush semi-double trailer***Fuchsia x hybrida*

Trailing Lena cascades with semi-double blush-pink and rosy-mauve blooms, a vigorous old favorite for shade baskets and window boxes. Trails freely all season.

Tray Sizes: 102Height 10-18" · Spread 12-18"

GOMPHRENA

Cosmic Flare NEW

Tall, airy well-branched

Gomphrena globosa

Bred by Plants Nouveau

Cosmic Flare is a heat-loving gomphrena bearing bright, clover-like blooms on airy, well-branched plants that hold color in the garden and dry well for crafts.

Tray Sizes: 102

Height 15-24" · Spread 20-24"

Full Sun · Deer Resistant

Fireball NEW

Vivid, drought-tolerant

Gomphrena globosa

Bred by Kientzler

Fireball is a vivid gomphrena producing a steady show of round, papery blooms on tough, drought-tolerant plants favored for borders and bouquets.

Tray Sizes: 102

Height 12-18" · Spread 14-18"

Full Sun · Deer Resistant

AVAILABLE COLORS

Pink

Pinball NEW

Compact, early-flowering

Gomphrena globosa

Bred by Sakata

Pinball is a compact gomphrena that flowers early and heavily with rounded, jewel-toned heads on tidy plants suited to packs and patio pots.

HELICHRYSUM

Icicles

Needle-like silver trailer

Helichrysum petiolare

Icicles has the narrowest, most needle-like silver foliage of any commercial *Helichrysum* — useful where broader-leaved selections look too coarse in a combo. Vigorous trailing habit anchors mixed containers as a textural accent rather than a flowering element. Takes heat and drought once it is established.

Tray Sizes: 102

Height 8-12" · Spread 18-36"

Full Sun · Deer Resistant

Limelight

Bright chartreuse trailer

Helichrysum petiolare

Limelight pushes bright chartreuse foliage that lights up combo pots and baskets without competing with flowering centerpieces. Vigorous trailer with strong heat tolerance once established. Holds color through summer, particularly in full sun where the brightness stays clean rather than fading to dull green.

Tray Sizes: 102

Height 8-12" · Spread 18-36"

Full Sun · Deer Resistant

**Heliotrope Fragrant Delight****Helichrysum Silverstar****Impatiens SunStanding Flame Orange****HELICHRYSUM****Petite Licorice****Compact, smaller-leaved***Helichrysum petiolare*

A more compact, smaller-leaved version of the classic licorice plant — Petite Licorice fits cleanly into 4" combos and smaller baskets where standard *Helichrysum* would overrun the planting. Soft silver-gray foliage, vigorous trailing habit, full sun and drought tolerance once rooted in. Reliable textural filler.

Tray Sizes: 102

Height 8-12" · Spread 18-36"

Full Sun · Deer Resistant

Silverstar**Star-shaped, denser branching***Helichrysum petiolare**Bred by Westhoff*

Silverstar carries broader, star-shaped silver foliage with denser branching than typical *petiolare* selections — holds shape better in baskets without the heavy mid-season trim. Strong heat and drought tolerance. Programs cleanly with predictable timing as a sun-tolerant textural filler.

Tray Sizes: 102

Height 8-12" · Spread 18-36"

Full Sun · Deer Resistant

White Licorice**Silver-white felted trailer***Helichrysum petiolare*

White Licorice brings bright silver-white, felted foliage to combinations — a luminous trailing filler that cools and unifies hot color partners. Heat- and drought-tolerant with a vigorous spreading habit.

Tray Sizes: 102

Height 8-12" · Spread 18-36"

Full Sun · Deer Resistant

HELIOTROPE**Fragrant Delight****Deep-purple, vanilla scent***Heliotropium arborescens*

Fragrant Delight carries classic deep-purple heliotrope clusters and the signature vanilla-cherry scent. Strong basal branching builds full quart and gallon programs. A reliable summer performer for mixed combos and standalone color.

Tray Sizes: 102

Height 12-18" · Spread 12-16"

Full Sun to Part Sun · Deer Resistant

Midnight Sky**Oversized violet clusters***Heliotropium arborescens**Bred by Kientzler*

Midnight Sky carries oversized clusters of deep violet-purple florets with strong vanilla fragrance on a uniform mounded habit. Vigor and basal branching make it a clean finisher and bloom comes early enough to hit spring ship windows.

Tray Sizes: 102

Height 12-18" · Spread 12-16"

Full Sun to Part Sun · Deer Resistant

IMPATIENS**SunStanding****Sun-tolerant walleriana***Impatiens walleriana**Bred by Dümmer Orange*

SunStanding brings walleriana impatiens color back to the sun-tolerant category, performing in both shaded beds and partial sun exposures. Quick-Turn cuttings finish packs and quarts in 4-6 weeks for tight scheduling. Uniform mounding habit and dense flower coverage rebuild the case for impatiens in landscape plantings.

Tray Sizes: 102

Height 12-16" · Spread 12-16"

IPOMOEA

Black Heart

Near-black heart-leaf

Ipomoea batatas

Black Heart sweet potato vine pushes deep near-black, heart-shaped foliage that anchors mixed containers and provides high-contrast trailing color. Vigorous heat-lover finishes quickly and adds drama without flowering dependency. A reliable thriller-spiller foliage option that holds shape through summer landscape installations.

Tray Sizes: 102Height 8-14" · Spread 24-36"
Full Sun**Blackie**

Classic lobed near-black

Ipomoea batatas

Blackie is the classic deeply-lobed, near-black ipomoea — broader maple-leaf shape than newer varieties and a strong, vigorous trailer for combos, baskets, and mass landscape color. Reliable heat tolerance and rapid finish keep production windows tight. Still the standard for designers needing bold dark foliage at scale.

Tray Sizes: 102Height 8-14" · Spread 24-36"
Full Sun**Bright Ideas**

Refined palette, mounding

*Ipomoea batatas**Bred by Dümmen Orange*

Bright Ideas offers a refined ipomoea color palette of black, lime, and rusty red on a controlled mounding-trailing habit suited to combination work while allowing recipe partners room to perform. Strong branching and consistent leaf color across the line.

Tray Sizes: 102Height 8-14" · Spread 24-36"
Full Sun

AVAILABLE COLORS

Black · Cordate Black ·
Cordate Lime · Cordate Rusty ·
Lime · Rusty Red**Floramia**

Compact, controlled trailing

*Ipomoea batatas**Bred by Dümmen Orange*

Floramia offers a tighter, more compact ipomoea with a controlled trailing habit ideal for tighter combo pots and 4.25-inch programs. Less rampant than older varieties, so recipe partners maintain proportion. Clean leaf color and quick finish keep production efficient.

Tray Sizes: 102Height 6-12" · Spread 18-30"

Tricolor

Variegated green-pink-cream

Ipomoea batatas

Tricolor sweet potato vine breaks up the green-or-black ipomoea category with variegated green, pink, and cream foliage on a moderate vigor habit. Adds foliage contrast to combo pots without overrunning recipe partners. Heat tolerant and reliable for spring through summer combo programs.

Tray Sizes: 102Height 8-14" · Spread 24-36"
Full Sun

IRESINE

Blazin Rose

Bright rose-red foliage

Iresine herbstii

Blazin Rose carries brilliant rose-red foliage veined in deeper carmine and topped with semi-succulent cerise stems for striking design impact. Adaptable across sun and shade exposures, making it an unusually flexible foliage option for combo work. Heat-loving for mid-spring through summer ship windows.

Tray Sizes: 102Height 12-18" · Spread 10-14"
Full Sun to Part Sun

IVY GERANIUM

Great Balls of Fire

Semi-double ivy, trailing

*Pelargonium peltatum**Bred by Dümmen Orange*

Great Balls of Fire opens semi-double ivy geranium flowers in a range of warm and pastel tones on a heat-tolerant, well-branched habit. Holds blooms longer in hot weather than older ivy types, reducing summer shrink in baskets and combos. Consistent crop timing across colors in the series.

Tray Sizes: 105Height 10-14" · Spread 18-24"
Full Sun to Part Sun

AVAILABLE COLORS

Blue · Dark Red · Hot Pink · Lilac · Melon · Merlot · Pink · Salmon Bicolor · White

Mini Cascade

Compact ivy, cascading

*Pelargonium peltatum**Bred by Dümmen Orange*

Mini Cascade is the classic European-style ivy geranium — small single florets in dense clusters cascading over basket and window-box edges. Tighter and more disciplined than full-size ivy types, with strong heat performance and reliable bloom through summer. A staple program for premium hanging-basket growers.

LANTANA

Confetti

Color-shifting multicolor

Lantana camara

Confetti lantana produces multicolored clusters that shift through yellow, pink, orange, and lavender as florets mature, giving each plant a constantly changing color show. Vigorous spreading habit and exceptional heat tolerance make it a butterfly-magnet performer in landscape installations and large containers.

Tray Sizes: 102

Height 18-24" · Spread 18-24"

Full Sun · Deer Resistant

Dallas Red

Yellow-to-red maturing

Lantana camara

Dallas Red lantana opens yellow-orange and shifts to fiery red as florets mature, producing constant color contrast through summer. Bushy, dark, rough-textured foliage stands up to drought and full sun, and the variety's hummingbird draw adds landscape value.

Tray Sizes: 102

Height 18-24" · Spread 18-24"

New Gold

Sterile golden standard

Lantana camara

New Gold is the sterile-hybrid lantana standard — continuous golden-yellow bloom from spring through frost with no seed-set energy drain. Dense compact mound, non-invasive in Southern markets, and a proven pollinator performer. Heat and drought tolerant with reliable garden longevity that supports landscape contractor demand.

Tray Sizes: 102

Height 18-24" · Spread 18-24"

Full Sun · Deer Resistant

Trailing Lavender

Cascading soft lavender

Lantana camara

Trailing Lavender lantana cascades with continuous clusters of soft lavender florets accented by yellow throats. Low-growing spreading habit fills baskets and large container edges without aggressive overgrowth. Extreme heat and drought tolerance hold color through humid summers, with minimal shrink in holding.

Tray Sizes: 102

Height 18-24" · Spread 18-24"

Full Sun · Deer Resistant

Trailing White

Cascading clean white

Lantana camara

Trailing White cascades with clean white clusters on a vigorous spreading habit, a cool, pollinator-friendly counterpoint to the warmer trailing lantanas. Heat- and drought-tough for baskets, walls, and ground-cover.

PETCHOA

Supercal

Petchoa x supercal

Bred by Sakata

Petunia color on all-weather toughness — SuperCal stands up to cold, heat, and heavy rain, and bounces back self-cleaned.

An intergeneric petunia-calibrachoa hybrid, SuperCal holds up in weather no standard petunia will take. The series stands up to cold, heat, and heavy rain — bouncing back from storms with minimal damage. Self-cleaning habit and broad color range make it a strong basket and combo program.

Tray Sizes: 102 · Height 8-14" · Spread 16-24" · Full Sun

Petunia Amazonas Plum Cockatoo

Petunia Cascadias Pitaya

Petunia Crazytunia
Moonstruck**PETCHOA****Supercal Premium**

Larger petunia-sized blooms

*Petchoa x supercal**Bred by Sakata*

SuperCal Premium is an advanced intergeneric hybrid that combines the traits of petunias and calibrachoa. These vigorous performers deliver large, petunia-sized flowers with the exceptional heat tolerance and weather resistance of calibrachoa. SuperCal Premium offers continuous blooming from spring through fall without deadheading, maintaining its garden performance even through summer heat and humidity.

Capella NEW

Compact mounding, early

*Petunia x hybrida**Bred by Danziger*

Capella is a compact, mounding petunia bred for early, uniform flowering and dense coverage in packs, pots, and combination plantings.

Tray Sizes: 102

Height 8-10" · Spread 10-14"

Full Sun

AVAILABLE COLORS

Neon Pink · Rose Ink · White

Cascadias

Semi-trailing basket blooms

*Petunia x hybrida**Bred by Danziger*

Cascadias pairs early bloom with a semi-trailing habit purpose-bred for premium hanging baskets and high-impact combinations. Large flowers in unique bicolor and pattern selections cover the plant, while the controlled cascade keeps containers looking professional through the season. Early enough to slot into any spring program.

Tray Sizes: 102

Height 6-10" · Spread 18-30"

Full Sun

AVAILABLE COLORS

Bicolor Cabernet · Pitaya · Rim Cherry · Rim Violet

Crazytunia

Eye-catching pattern variety

*Petunia x hybrida**Bred by Westhoff*

Crazytunia is the go-to series when a program needs eye-catching pattern variety — think stonewash, starburst, and saturated bicolors. The mounded-to-trailing habit finishes well in 4.5-inch and basket programs, in color combinations no solid petunia can match.

Tray Sizes: 102

Height 6-10" · Spread 18-24"

AVAILABLE COLORS

Moonstruck

PETUNIA

Itsy**Tiny-flowered solid blanket***Petunia x hybrida**Bred by Syngenta Flowers*

Tough and tiny, Itsy gives dense color coverage with masses of small flowers forming a solid blanket of color. Strong branching and a controlled habit fit the growing demand for small-flowered petunias — ideal for 4-inch and pack programs without overgrowing.

Tray Sizes: 102

Height 4-6" · Spread 6-10"

Full Sun

AVAILABLE COLORS

Magenta · Pink · White

Littletonia**Small-bloom basket tier***Petunia x hybrida**Bred by Danziger*

Littletonia packs small, abundantly produced blooms onto a tight habit with season-long color and strong weather tolerance. Designed for baskets and color bowls, the series holds condition well and finishes consistently across pack and pot programs.

Tray Sizes: 102

Height 6-10" · Spread 14-20"

Full Sun

AVAILABLE COLORS

Blue Vein · Rose · Shiraz · White Grace

Painted Love Purple**White with purple blur***Petunia x hybrida**Bred by Syngenta Flowers*

A standout variety featuring crisp white blooms with a hypnotic purple blur pattern. The mounding-to-trailing habit suits hanging basket programs. A reliable full-sun performer with strong branching and continuous bloom set.

Tray Sizes: 102

Height 8-14" · Spread 14-24"

Full Sun

Ray**Large flower, mounded***Petunia x hybrida**Bred by Danziger*

Ray combines large flowers with a controlled mounded habit. Early blooming makes it a fit for any spring program, while strong branching builds full plants for 4.5-inch and gallon production. A reliable performer for growers needing scheduling consistency.

Tray Sizes: 102

Height 6-10" · Spread 18-24"

Full Sun

AVAILABLE COLORS

Purple Vein · Sunshine · White

Sanguna**Programmable, wide color***Petunia x hybrida**Bred by Syngenta Flowers*

Sanguna is built for scheduling — a uniform, programmable series with a wide color range across the main petunia segments. Large flowers and a mounding-in-production / trailing-in-garden habit deliver impactful baskets and combos. Cool-finish capable making it a strong fit for early-season programs.

Surfinia Summer

Heat-tough midsummer line

Petunia x hybrida

Bred by Suntory

The Summer line within the Surfinia family is bred for heat-tolerant garden performance through midsummer and beyond. Vigorous trailing habit and large self-cleaning flowers hold up to summer storms and high temperatures without losing color or form.

Tray Sizes: 102

Height 6-12" · Spread 24-36"

Full Sun

AVAILABLE COLORS

Double Rose · Double Salmon

Surfinia Trailing

Most aggressive cascade

Petunia x hybrida

Bred by Suntory

Surfinia Trailing pushes spread to 30-48 inches - the most aggressive cascading habit in the Surfinia family.

Tray Sizes: 102

Height 6-10" · Spread 30-48"

Full Sun

AVAILABLE COLORS

Heavenly Amethyst Burst · Heavenly Blue · Heavenly Cabernet · Magenta · White · Yellow

Sweetunia

Medium-upright filler

Petunia x hybrida

Bred by Dümmer Orange

Sweetunia offers a medium-upright habit with controlled vigor — flexible enough for pots but also works as a strong filler in combo pots. Consistent branching fills plants out without becoming unruly, and the series finishes cleanly across spring through summer schedules with bold, saturated colors.

Tray Sizes: 102

Height 6-10" · Spread 18-24"

PLECTRANTHUS

Coleoides Variegata

Cream-edged trailing ivy

Plectranthus hybrid

A classic variegated Swedish ivy prized as a foliage filler. Grayish-green leaves edged in creamy white add brightness to mixed containers and baskets with a soft trailing habit. Part-sun tolerant and forgiving in production, making it dependable for combo programs.

Tray Sizes: 102

Height 12-18" · Spread 12-16"

Part Sun

PLECTRANTHUS

Magic Mona

Purple flower spikes

Plectranthus hybrid

Bred by Kientzler

Magic Mona sends up spikes of rich purple, tubular flowers above bushy green foliage from summer into fall — a shade-tolerant bloomer that adds vertical color to mixed containers and baskets. Well-branched and compact, it tolerates part sun to shade and pairs as a reliable combination component.

Tray Sizes: 102

Height 12-18" · Spread 12-16"
Part Sun

Velvet Elvis

Purple flower spikes, late

Plectranthus hybrid

Bred by Terra Nova Nurseries

Velvet Elvis is grown for its tall, velvety deep-purple flower spikes that emerge mid-to-late summer. The compact habit and part-sun tolerance make it a strong late-season item — a distinctive late-finish program for growers looking beyond standard fall color.

Tray Sizes: 102

Height 12-18" · Spread 12-16"

Yellow-centered, green edge

Vinca major

Bright yellow-centered leaves edged in deep green give Major Maculata a glowing presence that lifts combination plantings. The vigorous trailing habit spills cleanly from 10-inch baskets and large mixed pots, with steady performance from spring through fall in part-sun to shade conditions.

Tray Sizes: 102

Height 6-12" · Spread 24-36"

Part Sun to Shade · Deer Resistant

Major Variegata

Cream-margin industry standard

Vinca major

The industry-standard variegated Vinca major — clean cream margins on rich green leaves, with the reliable vigor growers count on for combo programs. Cascades aggressively from hanging baskets and large mixed containers. Tolerates part-sun to shade and shrugs off cool spring and fall weather.

Tray Sizes: 102

Height 6-12" · Spread 24-36"

Part Sun to Shade · Deer Resistant

Wojo's Gem

Cream-center, green margin

Vinca major

Wojo's Gem flips the variegation pattern with bright cream-yellow leaf centers framed by deep green margins, giving growers a fresh alternative to standard Variegata. Strong cascading vigor fills baskets and combo pots quickly, while cool-season durability and part-shade tolerance extend the program window on both ends of the season.

PERENNIAL SEED

Build a dependable perennial program with a broad selection of seed-grown varieties for retail, landscape, and container production. Our expanding assortment combines trusted performers with exciting new introductions to meet today's market demand.

Digitalis Camelot Mix

ACHILLEA

Goldie

Dwarf mounds, golden-yellow

Achillea millefolium

Goldie forms compact mounds of finely cut gray-green foliage topped with flat clusters of golden-yellow flowers. The dwarf habit keeps plants tidy in an assortment of different pot programs. First-year flowering makes it a clean fit for spring perennial programs. Strong pollinator plant, low maintenance, and heat tolerant.

Tray Sizes: 72 • 162 • 288

Height 18-24" • Spread 18-24" • Zones 3-9

Full Sun • Deer Resistant

ACHILLEA

Summer Berries

Color-shifting, rebloomer

Achillea millefolium

Summer Berries opens in warm orange and red tones and fades to soft pink and rose as flowers mature, giving each pot a multi-color presentation buyers can see at a glance. Plants will rebloom through summer with deadheading. Strong butterfly draw supports pollinator displays. Can also be used as a cut flower.

Tray Sizes: 72 • 105 • 162

Height 18-24" • Spread 18-24" • Zones 3-9

Full Sun • Deer Resistant

AGASTACHE

Arizona Mix

Warm orange-rose mix

Agastache aurantiaca

Bred by Takii

Arizona Mix flowers in its first year with no vernalization, letting growers schedule it on annual timing with perennial durability. Plants throw an abundance of upright spikes packed with warm orange, rose, and pink florets. Excellent fit for mixed combos and quart programs, with strong pollinator appeal.

Tray Sizes: 72 • 162 • 288

Height 18-24" • Spread 14-18" • Zones 6-10

Full Sun • Deer Resistant

AGASTACHE

Zuni

Tall violet spikes

Agastache aurantiaca

Bred by Benary

Zuni is a vigorous Agastache that needs no vernalization to flower, opening tall rich violet spikes above bushy plants. Uniform, branching habit holds up in quart and gallon pots, and the long bloom window keeps pollinators working through summer. Schedule on annual timing for spring programs.

Tray Sizes: 72 • 162

Height 18-24" • Spread 14-18" • Zones 6-10

Full Sun • Deer Resistant

ALCEA

Chaters Double

Tall double, biennial

Alcea rosea

The standard for full-sized hollyhocks, with vertical structure that makes it a destination plant in cottage and pollinator garden displays. Performs as a biennial — program for second-year bloom or finish as first-year green starts for fall planting.

Tray Sizes: 72 • 162

Height 60-72" • Spread 18-24" • Zones 3-8

Full Sun

AVAILABLE COLORS

Banana • Bright Pink • Maroon • Mix • Violet • Yellow

Spring Celebrities

Dwarf, first-year bloom

Alcea rosea

Bred by Takii

Spring Celebrities is a naturally dwarf, multi-stemmed hollyhock that flowers in its first year and holds bloom for up to three months. The branched habit eliminates the staking and second-year wait of traditional Alcea. Large semi-double to double blooms in clean separate colors give strong impact in gallon pots and landscape installations.

Tray Sizes: 72 • 162

Height 36-48" • Spread 18-24" • Zones 3-8

ALCHEMILLA

Mollis Select

Scalloped apple-green leaf

Alchemilla mollis

Mollis Select carries clouds of chartreuse flowers above its signature scallop-edged, water-pleating foliage from late spring into summer. Shade-tolerant mounds soften front-of-border and combo plantings, and the textured apple-green leaves hold their look long after bloom. Strong filler for cut and dried arrangements with a tall stem length.

Tray Sizes: 72 • 162

Height 12-18" • Spread 18-24" • Zones 3-8

Part Sun to Shade • Deer Resistant

Thriller

Trailing, cold-storable

Alchemilla mollis

Bred by Benary

Thriller produces greenish-yellow flower sprays above bright green pleated foliage that thrives in part shade to shade. The structural, lightly trailing habit makes it a strong filler in mixed perennial combos and a long-lasting cut flower. Tolerates cool storage to 41°F for flexible scheduling across spring and early summer ship windows.

Tray Sizes: 72 • 162 • 288

Height 12-18" • Spread 18-24" • Zones 3-8

Part Sun to Shade • Deer Resistant

ANAPHALIS

New Snow

Silver-woolly everlasting white

Anaphalis margaritacea

New Snow pearly everlasting pairs silver-woolly foliage with clusters of papery white flowers that hold color in cut and dried arrangements. Drought-tolerant mounds thrive in well-drained soils where other perennials sulk, giving growers a low-input option for sun and meadow displays. Strong butterfly draw extends pollinator merchandising.

Aquilegia Winky Double Rose White

Arabis Little Treasure White

AQUILEGIA

Biedermeier Mix

Compact, short-spurred mix

Aquilegia vulgaris

Biedermeier Mix is a compact columbine sized for tight gallon and quart programs, with short-spurred, upward-facing blooms in mixed reds, pinks, blues, and whites. The habit is more controlled than traditional Aquilegia, holding flowers within the canopy for clean retail display. Reliable early-spring bloomer for shade and part-shade racks.

Tray Sizes: 72 • 105 • 162

Height 18-30" • Spread 12-18" •

Zones 3-9

Kirigami

Annual-like, upward-facing

*Aquilegia caerulea**Bred by Syngenta Flowers*

Kirigami programs like an annual with minimal vernalization, opening uniformly across all colors for predictable scheduling and clean ship-out. Upward-facing blooms in bright separate colors improve shelf impact versus nodding traditional columbines. The controlled habit eliminates the floppy stems that hurt retail presentation. Strong fit for 4" and quart pot programs.

Tray Sizes: 72 • 162

Height 10-14" • Spread 10-12" •

Mckana Mix

Tall long-spurred bicolor

Aquilegia caerulea

Mckana Mix is the long-trusted tall columbine, with large long-spurred bi-colored flowers in late-spring jewel tones across reds, yellows, blues, and pinks. The tall stems display well in gallon programs and cut cleanly for bouquets. Performs in part sun and shade, giving growers a dependable, name-recognized columbine for spring perennial benches.

Tray Sizes: 72 • 162 • 288

Height 18-24" • Spread 12-18" •

Zones 3-8

Part Sun • Deer Resistant

Winky Double

Fully double, sturdy stems

*Aquilegia vulgaris**Bred by Syngenta Flowers*

Winky Double carries upward-facing fully double flowers on sturdy stems, holding bloom presentation high in the pot for strong retail visibility. Compact, uniform plants finish on tight schedules and deliver an extended flowering window, making it a productive choice for spring perennial gallon programs, combination plantings, and pollinator-focused displays.

PERENNIAL SEED

ARABIS

Snowcap

White, yellow-eyed; tough

Arabis caucasica

Snowcap arabis carries fragrant white flowers with buttery yellow eyes above semi-evergreen, matted foliage. The tough, drought-tolerant habit handles wall, edge, and rockery placements where other perennials struggle. Early-spring bloom makes it a strong cool-rack item, pairing well with bulbs and other cool crops in combination programs.

Tray Sizes: 72 • 162

Height 4-8" • Spread 12-18" •

Zones 4-8

ARENARIA

Blizzard Compact

Tight white-flowered mat

Arenaria montana

Blizzard Compact forms a dense evergreen mat, covered with masses of pure white star flowers in spring. Tolerates lean, sandy, gritty soils and drought once established, making it a low-input choice for rockeries, stepping stones, edges, and alpine troughs. Evergreen foliage holds interest off-season for year-round display.

Tray Sizes: 72 • 162

Height 2-4" • Spread 12-18" •

Zones 4-8

Full Sun to Part Sun • Deer Resistant

Montana

Spreading alpine carpet

Arenaria montana

Montana is the straight-species mountain sandwort, a spreading evergreen carpet studded with comparatively large, pure white star flowers in late spring. Looser and faster to knit than compact selections, it fills rocky gaps, wall crevices, and stepping-stone joints quickly. Drought-tolerant in lean, gritty soils once established, with evergreen foliage that holds interest off-season.

Tray Sizes: 72 • 162

Height 2-4" • Spread 12-18" •

Zones 4-8

Full Sun to Part Sun • Deer Resistant

ARMERIA

Maritima Splendens

Rose cushions, salt-tolerant

Armeria maritima

Maritima Splendens carries globular rose-pink, cushion shaped flower heads on wiry, grass like stems. Tolerates poor, well-drained soils and salt spray, making it a reliable choice for coastal and rockery programs. Strong bee and butterfly draw extends pollinator appeal across spring and early summer in 4" and quart pots.

Tray Sizes: 72 • 162

Height 6-10" • Spread 8-12" •

Zones 3-9

Full Sun • Deer Resistant

Ministicks

Dwarf, oversized lollipops

Armeria maritima

Bred by PanAmerican Seed

Ministicks is a dwarf armeria producing oversized rosy-pink lollipop flower heads on short, sturdy stems above tight evergreen cushions. Compact habit and proportionally large blooms make it a standout in 4" pot programs and quart combos. Excellent in rockeries, edging, and pollinator merchandising.

Tray Sizes: 72 • 162 • 288

Height 4-6" • Spread 6-8" •

ASCLEPIAS

Incarnata Rose

Pink swamp type, wet soils

Asclepias incarnata

Incarnata Rose is a clear pink swamp milkweed with tall fragrant flower clusters that draw butterflies and bees and serve as a monarch host. Tolerates moist soils where butterfly weed will not establish, opening up wetland and rain-garden programs. Strong native-plant credentials for pollinator and conservation-focused programs.

Tray Sizes: 72 • 162

Height 36-48" • Spread 18-24" •

Zones 3-9

Full Sun to Part Sun • Deer Resistant

Red Butterfly

Tropical red-orange, blooms to frost

Asclepias curassavica

Red Butterfly tropical milkweed produces vivid red-orange and yellow flower clusters and serves as both a monarch nectar source and host plant. Bloom continues from summer into frost, extending pollinator appeal long past the typical native milkweed window. Performs in heat and tolerates leaner soils than swamp milkweed.

Tray Sizes: 72 • 162 • 288

AVAILABLE COLORS

Deep Red

Speciosa

Western native, pink stars

Asclepias speciosa

Speciosa is the showy western native milkweed, with pale pink to lavender star-cluster flowers. Less aggressive rhizomatous spread than common milkweed makes it a more controlled option for container and landscape pollinator plantings. Drought-tolerant once established and a valued monarch host for native-plant and conservation programs.

Tray Sizes: 72 • 162

Height 24-36" • Spread 18-24" • Zones 3-9

Full Sun • Deer Resistant

Tuberosa

Orange native, taprooted

Asclepias tuberosa

Native butterfly weed opens brilliant orange umbels from early summer through fall on tough, drought-tolerant plants. A monarch host with no milky sap and a deep taproot — transplant once to avoid root disturbance. Reliable performer for native, pollinator, and roadside landscape programs.

Tray Sizes: 72 • 105 • 162 • 288

Height 18-30" • Spread 12-18" • Zones 3-9

Full Sun • Deer Resistant

Verticillata

Threadleaf native, compact

Asclepias verticillata

This variety has fine, threadlike foliage that gives this native monarch host plant a softer texture than tuberosa. Its compact habit suits quart programs, and the clump-forming taproot tolerates dry, lean soils. Strong fit for native plant, pollinator, and meadow restoration tags.

Tray Sizes: 72 • 162 • 288

COREOPSIS

Early Sunrise Yellow

AAS 1989 NEW

Semi-double OP workhorse

Coreopsis grandiflora

A proven workhorse, Early Sunrise produces golden semi-double blooms the first season from seed and reblooms summer through fall with light deadheading. Reliable germination and a tidy habit make it a dependable open-pollinated option for quart and gallon production.

Tray Sizes: 72 • 105 • 162 • 288

Height 12-24" • Spread 12-18" • Zones 4-9
Full Sun • Deer Resistant

Lanceolata

Native single, lacy leaf

Coreopsis lanceolata

This North American native — the wild ancestor of garden coreopsis — pairs fine, lacy foliage with classic single golden daisies on slender stems. A core item for native-plant and pollinator programs, it tolerates poor soils, drought, and clay. A good fit for landscape buyers.

Tray Sizes: 72 • 162

Height 12-18" • Spread 12-18" • Zones 3-8
Full Sun • Deer Resistant

Presto

Compact semi-to-fully double gold

Coreopsis grandiflora

Presto has large, semi-double to fully double golden yellow blooms held above neatly mounded foliage. First-year flowering from seed and a compact, well-branched habit make it a strong quart and gallon performer where instant color and uniform finish across the crop matter.

Tray Sizes: 72 • 162

Height 12-24" • Spread 12-18" • Zones 4-9
Full Sun • Deer Resistant

Sunfire

Single, burgundy-eyed; early

Coreopsis grandiflora

Bred by PanAmerican Seed

Sunfire ships color seven to ten days ahead of Early Sunrise, producing abundant large single blooms with golden petals and a sharp burgundy-red eye. Strong first-year flowering, a vigorous yet uniform habit makes it a flexible scheduling choice.

Tray Sizes: 50 • 72 • 162 • 288

Height 12-24" • Spread 12-18" • Zones 4-9
Full Sun • Deer Resistant

Sunglobe

Fluffy semi-double dome

Coreopsis grandiflora

Bred by PanAmerican Seed

Sunglobe Golden Yellow carries fluffy semi-double golden blooms on a tidy, densely branched dome that reflowers in distinct flushes from spring through fall. Holds its form well in quart and gallon programs. A good choice for tighter scheduling windows.

Tray Sizes: 72 • 162

Height 10-14" • Spread 12-16" • Zones 4-9

Gaillardia aristata

Dwarf Goblin pulls Gaillardia's signature red-and-yellow bicolor daisies down to a compact mounded habit that holds form in gallons and quarts without flop. First-year flowering from seed, drought- and heat-tolerant, with steady bloom from early summer through frost — a reliable filler for pollinator and full-sun perennial programs.

Mesa

Uniformity benchmark, award

Gaillardia aristata

Bred by PanAmerican Seed

Mesa Gaillardia remains the benchmark for uniformity. Vivid colored daisy like blooms flower the first season. Award winning genetics and predictable crop timing make Mesa a workhorse for commercial perennial scheduling under heat and drought.

GAZANIA

Colorado Gold

Truly cold-hardy gazania

Gazania linearis

Colorado Gold is a true hardy gazania selected for cold tolerance — bright golden-yellow daisies on a low mat of silvery, semi-evergreen foliage that returns reliably in zones where annual gazanias quit. A useful pick for rock-garden growers and contractors building dry, low-water landscape plantings in the Mountain West and Mid-Atlantic.

HELIOPSIS

Burning Hearts

Bronze-purple leaf, red eye

Heliopsis helianthoides

Burning Hearts pairs dark bronze-purple foliage with yellow daisies marked by a deep red eye — a striking contrast that holds through the season on strong, self-supporting stems. The dark foliage carries the plant before bloom and after, giving growers a late-summer perennial that looks finished for the whole crop cycle.

Summer Sun

Standard gold semi-double

Heliopsis helianthoides

Bred by Benary

Summer Sun is the standard yellow Heliopsis — semi-double, deep-gold daisies covering upright clumps from midsummer to fall. Tough, drought-tolerant, and self-supporting in production, it's an easy perennial crop for cut-flower growers and for landscape contractors needing tall full-sun color where rudbeckia would normally hold the slot.

HEUCHERA

Bressingham Mix

Pink-rose-white bell mix

Heuchera sanguinea

Bred by Benary

Bressingham Mix is a seed strain carrying the classic range of pink, rose, and white coral-bell spikes above evergreen mounded foliage — useful where growers want Heuchera color economics without the cost of vegetative cultivars. First-year flowering on wiry stems, with good part-shade tolerance for shade-program slots.

Tray Sizes: 72 · 162 · 288

Height 10-14" · Spread 12-16" ·

PERENNIAL SEED

HEUCHERA

Melting Fire

Ruffled purple-red foliage

Heuchera micrantha

Bred by Benary

Melting Fire is a ruffled, deeply lobed Heuchera with intense purple-red foliage that holds color from spring flush through fall, deepening in cool weather. Compact mounds finish cleanly in quarts and gallons, and seed propagation keeps the program economical against tissue-culture purple-leaf cultivars.

PEROVSKIA

Blue Steel**Tall upright, silver stems***Perovskia atriplicifolia*

Blue Steel is an award-winning Russian sage with strong upright habit, silvery-white stems, and deep violet-blue flower spikes from midsummer into fall. Aromatic gray-green foliage tolerates heat, drought, and poor soils, making it a low-input crop for 1- and 2-gallon perennial programs. Strong stem contrast suits landscape and pollinator-garden plantings.

Tray Sizes: 72 • 162 • 288

Height 36-48" • Spread 24-36" •

Zones 4-9

Full Sun • Deer Resistant

Bluesette**Compact, no-stake habit***Perovskia atriplicifolia*

Bluesette is a more compact Russian sage with a tight, well-branched habit and scented lavender-blue flower panicles on silvery stems. Heat- and drought-tolerant once established, it holds an even grade in gallon containers and holds shape without staking. A clean, lower-shrink alternative to taller selections.

Paprika**Scarlet aging to dusty pink***Achillea millefolium*

Paprika opens scarlet red and softens to brick and dusty pink with age, giving every plant a multi-tone flower head that holds interest through the season. Finely cut gray-green foliage on tall stems. A strong cutting and pollinator yarrow for full sun areas.

Tray Sizes: 72 · 102

Height 18-24" · Spread 18-24" ·

Zones 3-9

Full Sun · Deer Resistant

Pomegranate**Richest velvety red, cut***Achillea millefolium**Bred by Must Have Perennials*

Pomegranate holds the richest velvety red color in the millefolium class, with masses of long-lasting flower clusters on strong stems. Aromatic ferny foliage and strong cut-flower performance. Drought-tolerant once rooted and reliably uniform for full-sun perennial flats.

Tray Sizes: 72 · 102

Height 18-24" · Spread 18-24" ·

Zones 3-9

Full Sun · Deer Resistant

Sea Breeze**Soft pastels, water-wise***Achillea millefolium**Bred by Concept Plants*

Sea Breeze carries soft pastel flower clusters on sturdy, upright stems that hold up under shipping and handling. Compact habit fits cleanly into landscape and 1-gallon programs without staking. Excellent drought tolerance makes it a reliable performer for low-water perennial mixes and water-wise landscape plantings.

Tray Sizes: 72 · 102

AGASTACHE

Beelicious

Compact, drought & heat tough

Agastache foeniculum

Bred by Concept Plants

Beelicious produces long whorled spikes of tubular flowers on a compact, bushy habit that finishes cleanly in 1-gallon and mixed-container programs. Anise-scented foliage and continuous summer-to-autumn bloom give growers a long flowering window. Concept Plants bred the series for drought tolerance and heat resistance across diverse markets.

Better Buzz

Hot-region color holder

Agastache aurantiaca

Bred by Dümmer Orange

Better Buzz thrives in hot-region production, holding flower color and habit where other Agastache fade. Slender, tubular blooms cover plants from summer to fall and draw pollinators. The compact habit grades out even in 1-gallon programs with strong heat tolerance through the summer ship window.

Tray Sizes: 72 • 102

Height 16-20" • Spread 14-18" •

Blue Boa

Licorice-scent, deep violet

Agastache rugosa

Bred by Terra Nova Nurseries

Award-winning Blue Boa carries dense spikes of deep violet-blue flowers on a tight mound of aromatic, ultra-green foliage, blooming early summer through fall. The vigorous selection holds in 1-gallon and 2-gallon programs without flopping. Licorice-scented foliage suits pollinator and culinary herb plantings.

Full Sun · Deer Resistant

Purple Haze

Late color, ages clean

Agastache rugosa

Purple Haze extends the Agastache bloom window with purple-blue flowers that age cleanly, holding color longer than older varieties. Mint-family foliage is aromatic and deer-resistant, and the plant keeps flowering late in the season when other perennials fade. Strong upright habit fills 1- and 2-gallon containers reliably for landscape and pollinator plantings.

Tray Sizes: 72 · 102

Height 24-36" · Spread 18-24" ·

Zones 5-9

Ajuga Black Scallop

Ajuga Bronze Beauty

Ajuga Burgundy Glow

Ajuga Caitlin's Giant

Ajuga Chocolate Chip

AJUGA

Black Scallop

Near-black scalloped leaves

Ajuga reptans

Black Scallop covers ground with glossy, near-black scalloped foliage that holds color from spring through fall, providing striking contrast with the deep blue flower spikes in spring. The dense, low-growing habit fills 4.5" and quart programs uniformly, a foliage anchor for shade combo pots and landscape ground cover.

Tray Sizes: 72 • 102

Height 4-6" • Spread 12-18" •

Zones 3-9

Part Sun to Shade • Deer Resistant

Bronze Beauty

Bronze-green, deep-shade tough

Ajuga reptans

Bronze Beauty spreads as a vigorous evergreen ground cover with bronze-green foliage and blue spring flower spikes. Highly adaptable across soil types and tolerates part sun to deep shade, which suits it to landscape and woodland programs. The low, dense habit finishes uniformly in quart and 4.5" containers.

Tray Sizes: 72 • 102

Height 4-6" • Spread 12-18" •

Zones 3-9

Part Sun to Shade • Deer Resistant

Burgundy Glow

Cream-green-burgundy tricolor

Ajuga reptans

Burgundy Glow's tricolored foliage — cream, green, and burgundy — carries the plant even before bloom, with burgundy intensifying in fall for extended seasonal interest. Vibrant blue spring flower spikes top the dense, low ground-cover habit. Reliable performance in part sun to shade makes it a strong landscape and combo-pot anchor.

Tray Sizes: 72 • 102

Height 4-6" • Spread 12-18" •

Zones 3-9

Part Sun to Shade • Deer Resistant

Caitlin's Giant

Extra-large bronze leaves

Ajuga reptans

Caitlin's Giant offers extra-large, glossy bronze foliage and tall spikes of vibrant blue spring flowers — a standout among Ajuga ground covers. The vigorous spreading habit stays even in quart and 4.5" containers for shade-garden and landscape ground-cover programs.

Tray Sizes: 72 • 102

Height 4-6" • Spread 12-18" •

Zones 3-9

Part Sun to Shade • Deer Resistant

Chocolate Chip

Fine chocolate leaves, tidy

Ajuga reptans

Chocolate Chip's small narrow leaves in deep bronze-chocolate tones create dense, low ground-cover mats with striking blue flower spikes in late spring. The fine-textured foliage and compact habit fit naturally into stepping-stone, rock-garden, and shade-program plantings — a tidier alternative to standard Ajuga in 4.5" and quart finishing programs.

Tray Sizes: 72 • 102

Height 4-6" • Spread 12-18" •

ARTEMISIA

Powis Castle

Tall silver mound, deer-proof

Artemisia arborescens

Award-winning Powis Castle is a foundation silver-foliage selection: finely textured silvery-gray leaves on a vigorous foliage mound, extremely drought tolerant and aromatic. The strong habit anchors landscape and 1-gallon mixed-perennial programs where silver foliage carries the combination. Fragrant leaves resist deer reliably across regions, and the plant performs in low-water plantings.

Tray Sizes: 72 • 102

Height 24-36" • Spread 24-36" • Zones 6-9

Full Sun • Deer Resistant

Silver Brocade

Scalloped, trailing silver

Artemisia stelleriana

Silver Brocade's scalloped, velvety silvery-white foliage adds elegant texture and color contrast in mixed containers and landscape borders. The low habit thrives in heat and drought once established, supporting water-wise programs. Strong silver tone holds through summer — a clean foliage anchor for 4.5" combo and 1-gallon perennial finishing.

Tray Sizes: 72 • 102

Height 6-12" • Spread 12-24" • Zones 3-8

Full Sun • Deer Resistant

Silver Mound

Low tidy cut-leaf cushion

Artemisia schmidtiana

Silver Mound is a perennial-program staple: a low, tidy cushion of finely cut silver foliage forming a uniform mound. The cool silver tone pairs naturally with cool-toned flowering perennials in combo programs. Drought-tolerant once established and reliably winter-hardy, it remains one of the most repeatable Artemisia selections for landscape and rock-garden use.

Tray Sizes: 72 • 102

Height 8-12" • Spread 12-18" • Zones 3-8

Full Sun • Deer Resistant

PERENNIAL ROOTED CUTTINGS

ASTER

Aurora

Compact, no-pinch 1-gal

Aster novi-belgii

Bred by Dümmen Orange

Aurora adds vibrant late-summer and fall color to the perennial program. Grow alongside garden mums or on its own. This hardy selection has a naturally tidy compact growth habit in a container or a garden bed. No pinch or PGR is required when grown in a 1 gallon pot.

Tray Sizes: 72 • 102

Height 12-16" • Spread 10-14" •

Zones 4-8

Ultra Violet

Dwarf violet bells, 1st-yr

Campanula carpatica

Bred by Dümmer Orange

Ultra Violet brings first-year flowering with vivid violet-blue bells over compact, semi-evergreen mounds of glossy foliage. A reliable spring crop — finishes tight in a quart or gallon and holds its mounded form through finishing. Full sun to part sun.

Tray Sizes: 72 • 102

Height 6-10" • Spread 10-14" •

Zones 3-8

Full Sun to Part Sun

CARYOPTERIS

Emerald Crest

Green leaf, vivid blue

Caryopteris clandonensis

Bred by Darwin Perennials

Emerald Crest is a bluebeard with aromatic foliage and dense clusters of vivid blue flowers in late summer through fall — prime late-season color when most perennials have finished. Compact mounded habit suits gallon production and full-sun landscape use. Drought tolerant once established, reliable in hot, dry sites.

Tray Sizes: 72 • 102

Height 24-36" • Spread 24-36" •

Zones 5-9

Full Sun • Deer Resistant

Gold Crest

Gold foliage, blue bloom

Caryopteris clandonensis

Bred by Ball Seed

Gold Crest carries bright yellow, menthol-scented foliage with clouds of deep blue flowers from August through October. The vivid foliage contrast holds all season, even before bloom, making it a strong differentiator in the late-summer perennial program.

Tray Sizes: 72 • 102

Height 24-36" • Spread 24-36" •

Zones 5-9

Full Sun • Deer Resistant

Grand Bleu

Silvery leaf, no pinching

Caryopteris clandonensis

Bred by Darwin Perennials

Grand Bleu is a compact bluebeard producing masses of deep blue flowers over aromatic silvery-green foliage in late summer and early fall. The dense mounded habit fills a gallon pot cleanly without pinching and holds its shape. Reliable late-season color for the perennial program — drought tolerant and pollinator-attracting.

Tray Sizes: 72 • 102

Height 24-36" • Spread 24-36" •

Sunfetti

Petite bicolor, mildew resist

Coreopsis grandiflora

Bred by Darwin Perennials

Sunfetti carries an abundance of petite yellow and deep-red bicolor petals around orange centers, blooming most of summer above compact mounded foliage. Strong powdery mildew resistance gives it an edge over older coreopsis selections, and it bulks fast in both the container and the ground for efficient finish times.

White Shadow

Extra-early, large clusters

Iberis sempervirens

Bred by Dümmer Orange

White Shadow is an early-spring candytuft with large pure white flower clusters on a compact habit. The extra-early bloom window helps growers fill the gap between pansies and the main perennial push, extending the flowering season by several weeks.

KNIPHOFIA

Glowstick

Clear uniform yellow torch

Kniphofia uvaria

Bred by Darwin Perennials

Glowstick sends up a clear, uniform yellow torch — a color break from the standard red and orange palette. Clump-forming with grass-like foliage, it blooms summer into fall and holds well in 1- and 2-gallon programs. Heat, drought, deer, and rabbit tolerant for low-input landscape use.

LAMIUM

Beacon Silver

Broad silver leaf, pink

Lamium maculatum

Beacon Silver carries broad silver leaves edged in soft green, forming a tight semi-evergreen mat. Soft pink hooded flowers cover the plant late spring through summer. A proven shade-garden workhorse for groundcover, woodland, and under-tree programs where finished color is needed under part-sun to deep shade.

Tray Sizes: 72 · 102

Height 6-10" · Spread 18-30" ·

Zones 3-8

Part Sun to Shade · Deer Resistant

Ghost

Silver leaf, dry-shade tough

Lamium maculatum

Ghost stands out in dead nettle programs with bright silver foliage and crisp forest-green edges, topped by fuchsia flower spikes spring through fall. Tolerates dry shade once established, making it dependable for landscapers planting under mature trees. Quick to fill with strong rooting and uniform habit.

Lamium Ghost

Lamium Golden Anniversary

Lamium Orchid Frost

LAMIUM

Golden Anniversary
Green-silver-gold tricolor*Lamium maculatum*

Golden Anniversary offers a tricolor leaf — deep green with a silver center stripe and bright chartreuse margin — that carries the plant even before bloom. Pink flowers begin mid-spring and rebloom into autumn. Spreads in part shade, and finishes cleanly.

Tray Sizes: 72 • 102

Height 6-10" • Spread 18-30" •

Orchid Frost

Silver leaf, orchid-pink

Lamium maculatum

Orchid Frost lights up shade plantings with radiant silver leaves edged in narrow green and orchid-pink hooded flowers from mid-spring into sporadic summer rebloom. The bright foliage holds color across the season, and the mat-forming habit pairs easily with hosta and fern programs.

Tray Sizes: 72 • 102

Height 6-10" • Spread 18-30" •

Zones 3-8

Part Sun to Shade • Deer Resistant

LAMIAM

Orchid Frost Gold NEW

Gold leaf, orchid-pink

Lamium maculatum

Orchid Frost Gold takes the shade-brightening habit of Orchid Frost into golden-chartreuse foliage instead of silver — a glowing mat-former for shade programs where green-on-green flattens out. Orchid-pink hooded flowers rise in spring, but the gold leaf color carries the plant all season.

Tray Sizes: 72 · 102

Height 6-10" · Spread 18-30" · Zones 3-8

Part Sun to Shade · Deer Resistant

Orchid Frost Grande NEW

Supersized, faster spread

Lamium maculatum

Orchid Frost Grande is the supersized Orchid Frost — larger silver-and-green leaves and bigger orchid-pink hooded blooms on a more vigorous, faster-spreading mat that fills a container quickly and covers ground fast in the landscape. It reblooms through the season in part sun to shade, a bolder-textured take on the shade-garden standard.

Height 6-10" · Spread 18-30" · Zones 3-8

Part Sun to Shade · Deer Resistant

Pink Pewter

Salmon-pink, silver leaf

Lamium maculatum

Pink Pewter forms a semi-evergreen mat of heart-shaped silver leaves trimmed in narrow scalloped green, topped by salmon-pink hooded flowers from late spring into fall. The salmon tone fills a color gap most Lamium varieties miss, and the dense habit makes it a reliable pairing for mixed shade containers and pathway plantings.

Tray Sizes: 72 · 102

Height 6-10" · Spread 18-30" · Zones 3-8

Part Sun to Shade · Deer Resistant

Purple Dragon

Deepest magenta-purple

Lamium maculatum

Purple Dragon holds the deepest flower color in the dead nettle category — rich magenta-purple hooded blooms late spring through fall over silver-green heart-shaped leaves with wide green margins. The robust mat-forming habit spreads quickly, giving landscapers strong coverage value for shade groundcover specifications.

Tray Sizes: 72 · 102

Height 6-10" · Spread 18-30" · Zones 3-8

PERENNIAL ROOTED CUTTINGS

Red Nancy

Rose-pink, weed suppressor

Lamium maculatum

Red Nancy carries bright rose-pink flowers through spring with reliable rebloom into fall, set over silver-green scalloped heart-shaped foliage. An effective weed suppressor with spreading habit, it earns its place in landscape contractor programs where shade groundcover with extended bloom drives performance.

Tray Sizes: 72 · 102

Height 6-10" · Spread 18-30" · Zones 3-8

Part Sun to Shade · Deer Resistant

White Nancy

White-flowering standard

Lamium maculatum

White Nancy remains the white-flowering standard among silver-leaf dead nettles, with small white hooded blooms in spring and sporadic fall return over heart-shaped silvery-green leaves edged thin dark green. The clean white pairs cleanly with pastel shade programs and serves the wedding and traditional landscape installation segments.

Tray Sizes: 72 · 102

PEROVSKIA

Alisa NEW**Compact, airy blue***Perovskia atriplicifolia**Bred by Dümmer Orange*

Alisa is a compact Russian sage with aromatic silver foliage and airy blue flower spikes, bringing heat- and drought-tough, pollinator-friendly color to borders.

Tray Sizes: 72 • 102

Height 36-48" • Spread 24-36" •

Zones 4-9

Full Sun • Deer Resistant

Atriplicifolia**Classic tall species type***Perovskia atriplicifolia*

Hazy lavender-blue spikes on silver stems bring cool color from midsummer into fall, and the aromatic gray-green foliage thrives in heat, drought and poor soils — a dependable, low-input landscape perennial that finishes full.

Tray Sizes: 72 • 102

Height 36-48" • Spread 24-36" •

Zones 4-9

Full Sun • Deer Resistant

Blue Jean Baby**Compact, early, smoky calyx***Perovskia atriplicifolia**Bred by Walters Gardens*

Blue Jean Baby is a compact, early-blooming Russian sage forming a dense mound of fragrant gray-green foliage. Lavender-blue flowers held in smoky purple calyxes carry from midsummer into fall, with the color stretching through the season.

Tray Sizes: 72 • 102

Height 36-48" • Spread 24-36" •

Zones 4-9

Full Sun • Deer Resistant

Crazy Blue**Wind-firm deep blue***Perovskia atriplicifolia**Bred by Ball Seed*

Crazy Blue is a tidy, compact Russian sage with deep lavender-blue flowers on strong silvery stems above aromatic gray-green foliage. Its dense, well-branched habit holds up to wind and rain without flopping — an asset in containers and exposed landscapes.

Tray Sizes: 72 • 102

Height 36-48" • Spread 24-36" •

Perovskia Alisa

Perovskia Atriplicifolia

Perovskia Blue Jean Baby

Perovskia Crazy Blue

PEROVSKIA

Jelena**Upright, won't split open***Perovskia atriplicifolia**Bred by Dümmer Orange*

Russian sage is a favorite for drought-tolerant landscapes. It is a wonderful late summer perennial suitable for all regions, with gray-green foliage and attractive blue flower spikes. Jelena was recognized as a top performer for its upright form without splitting open at full size and a long summer color show.

Tray Sizes: 72 · 102

Height 36-48" · Spread 24-36" · Zones 4-9

Full Sun · Deer Resistant

Lacey Blue**Lacy leaf, no-flop compact***Perovskia atriplicifolia**Bred by Concept Plants*

Lacey Blue sets itself apart with finely dissected, lacy foliage and a naturally compact, upright habit that won't flop — ideal for smaller spaces and containers. Abundant lavender-blue spikes cover the plant from midsummer into fall. Extremely drought-tolerant and deer-resistant, it's a clean, well-behaved Russian sage.

Tray Sizes: 72 · 102

Height 36-48" · Spread 24-36" · Zones 4-9

Full Sun · Deer Resistant

Little Spire**Narrow upright, violet-blue***Perovskia atriplicifolia*

Little Spire is the compact, upright Russian sage that stays put — violet-blue spikes on slender silver-white stems that resist flopping even at maturity. Its narrow, tidy habit suits smaller gardens, borders, and container programs. Aromatic, drought-tolerant, and deer-resistant, it makes full, well-structured plants.

Tray Sizes: 72 · 102

Height 36-48" · Spread 24-36" · Zones 4-9

Full Sun · Deer Resistant

Prime Time**Compact, sturdy no-lodge***Perovskia atriplicifolia**Bred by Walters Gardens*

Drought-tolerant and blooming from midsummer through fall, it brings the classic lavender-blue spikes and aromatic silvery foliage of Perovskia in a size that suits smaller gardens, borders and mixed plantings where traditional Russian sage would simply be too large.

Tray Sizes: 72 · 102

SCABIOSA

Flutter**Oversized, heavy budding***Scabiosa columbaria**Bred by Ball Seed*

Flutter is a well-branched columbaria series carrying oversized pincushion blooms. Heavy budding and early, continuous flowering deliver full, colorful packs and gallons. Available in a strong color range, it offers growers uniform timing and dependable pollinator appeal.

Tray Sizes: 72 · 102

Height 10-14" · Spread 10-14" · Zones 4-9

Full Sun · Deer Resistant

AVAILABLE COLORS

Deep Blue · Rose Pink

Pink Mist**Soft pink pincushion***Scabiosa columbaria**Bred by David Tristram*

Pink Mist answers Butterfly Blue with soft pink pincushion flowers on the same long-blooming habit. Continuous spring-to-fall flowering keeps plants in bloom through the season, and its wiry stems hold up for cutting. A reliable pollinator perennial that pairs cleanly in mixed combinations.

Tray Sizes: 72 · 102

Height 12-16" · Spread 10-14" · Zones 4-9

Full Sun · Deer Resistant

Vivid Violet**Deep violet-purple, compact***Scabiosa columbaria**Bred by Terra Nova Nurseries*

Vivid Violet brings deep violet-purple pincushion blooms to the columbaria class on a compact frame. The saturated color reads strongly against the fine foliage, and the long bloom window carries from spring into fall. Strong-stemmed, pollinator-friendly, and well-suited to gallon programs.

Tray Sizes: 72 · 102

Height 12-16" · Spread 10-14" · Zones 4-9

Full Sun · Deer Resistant

SEDUM

Angelina Rupestre**Trailing gold, ambers cool***Sedum rupestre*

Angelina is a trailing Sedum with chartreuse-to-gold needle foliage that warms to amber in cool weather. This variety spills attractively from combination pots and baskets and roots in fast. Drought-tough and evergreen, it carries color in all four seasons.

Tray Sizes: 72 · 102

Height 6-10" · Spread 12-18" · Zones 3-8

Full Sun · Deer Resistant

Autumn Fire**Upright, pink to rust-red***Sedum spectabile*

Autumn Fire is an upright sedum holding large, flat flower heads that open dusty pink and deepen to rust-red as nights cool. A pollinator favorite that finishes clean in gallons and anchors fall color programs.

Tray Sizes: 72 · 102

Height 18-24" · Spread 18-24" · Zones 3-9

Full Sun

Autumn Joy**Upright benchmark, pink-russet***Sedum spectabile*

It carries broad flower heads from late summer into fall, and dependable, drought-tough hardiness fills a quart or gallon reliably — still the standard that anchors a fall perennial program.

Tray Sizes: 72 · 102

Height 18-24" · Spread 18-24" · Zones 3-9

Full Sun

Banana Split**Cream-gold striped needle***Sedum rupestre**Bred by Concept Plants*

Banana Split is a variegated Sedum with needle foliage striped with cream and gold over a low, spreading mound. Brightening combination pots and baskets, it offers fresh color interest beyond standard sedum.

Tray Sizes: 72 · 102

Height 6-10" · Spread 12-18" · Zones 3-8

VERONICA

Candela Compact, on-schedule series

Veronica spicata

Bred by Dümmer Orange

Candela is a series-bred spiked speedwell selected for uniform, well-branched mounds and abundant flower spikes. Tight day-length response keeps the series flowering on schedule across colors, simplifying mixed-color programs. Compact habit, early bloom, and pollinator appeal make it a clean, predictable Veronica for spring and summer.

LISIANTHUS

Rosita

Eustoma grandiflorum

Bred by Sakata

The benchmark double that anchors the East Coast's largest lisianthus program — Rosita is where serious cut-flower production starts.

Rosita is a Group 1 double lisianthus benchmark alongside Echo, suited to spring flowering programs where consistent early-season quality matters. Thick petals and strong stems resist botrytis and ship cleanly, producing high-grade cut stems even under early forcing conditions. A reliable scheduling tool for growers extending the lisianthus harvest window. Tray Sizes: 162 · 288 · Height 24-32" · Spread 8-12" · Full Sun to Part Sun

Famosa 75 days
A savoy cabbage that produces attractive 2–4 lb. heads with finely crinkled, deep blue-green leaves and a golden lime-green interior valued for its tender texture and excellent flavor.
Tray Sizes: 162 · 288

RED 2 VARIETIES · 80 DAYS

Red Dynasty 80 days
A midseason red cabbage producing dense, uniform heads with deep, vibrant color and outstanding fresh-market quality.
Tray Sizes: 162 · 288

Ruby Perfection 80 days
A mid-to-late red cabbage producing medium, dense heads averaging 3.5 lbs. with a uniform, high-round shape and vibrant color.
Tray Sizes: 50 · 105 · 162 · 288

Cantaloupe *Cucumis melo* 2 varieties
Melon transplants bred for early ripening and dependable sugars. Athena is the leading Eastern shipping melon — 5–6 lb. netted fruit with firm orange flesh and excellent shelf life — while Aphrodite steps up sugar and size for flavor-first markets.
Full Sun · Height 12–18"

ALL VARIETIES · 2		
Aphrodite	75	50·105
Athena	70	50

Cardoon *Cynara cardunculus* 1 variety
A striking architectural edible — silver serrated foliage that doubles as an ornamental centerpiece plant. Porto Spineless is grown for thick, silvery leaf stalks, traditionally blanched for tender texture, and its spine-free habit makes harvest and handling easy. Full Sun · Height 36–48" · Deer Resistant

ALL VARIETIES · 1

ALL VARIETIES · 1

Common

50-105-162

Stevia *Stevia rebaudiana*

1 variety

A high-interest specialty herb whose leaves carry 15–20 times the sweetness of sugar, used fresh or dried as a natural sweetener. The compact habit makes a tidy patio or windowsill pot. Full-sun vigor finishes a full, leafy plant. Full Sun · Height 12–24" · Deer Resistant

ALL VARIETIES · 1

Stevia

50-105-162-288

Tarragon *Artemisia dracunculoides*

1 variety

A hardier, more vigorous tarragon that trades some of the French type's refinement for cold tolerance to zone 3 — a more dependable crop for northern growers. Mild anise flavor suits culinary use, and the robust habit establishes fast. Full Sun · Height 18–24" · Deer Resistant

ALL VARIETIES · 1

Russian

50-105-162-288

Thyme *Thymus spp.*

3 varieties

Seed-raised creeping thymes — low, fragrant mats that carpet in pink-to-purple bloom for groundcover, edging, and between-paver plantings. Full Sun · Height 8–12" · Deer Resistant

ALL VARIETIES · 3

Magic Carpet

50-105

Mother of Thyme

105-162

SimplyHerbs

105-162

Valerian *Valeriana officinalis* 1 variety

Valeriana officinalis is a tall medicinal-herb perennial topped with fragrant pink flower clusters that draw pollinators. Roots are harvested after a second season, so it works as both a multi-year herb crop and a back-of-border ornamental. Full Sun to Part Sun · Height 36–48" · Deer Resistant

ALL VARIETIES · 1

Common

288

Valerian Common

HERB ROOTED CUTTINGS

Vegetatively propagated herbs, selected for genetics, vigor, uniformity and disease resistance. Clonal material takes the variability out of the crop, so field and greenhouse programs finish to the same standard, tray after tray and season after season.

Basil *Ocimum x citriodorum*

1 variety

Full Sun · Height 12–24" · Deer Resistant

Pesto Perpetuo NEW

A non-flowering, variegated columnar basil that stays compact and productive all season, prized for containers and ornamental herb displays.

Tray Sizes: 102

Lemon Balm *Melissa officinalis*

1 variety

Melissa officinalis offers a bright, sweet lemon-mint aroma used in cooking and teas. White summer flowers draw bees in full to part sun. Full Sun to Part Sun · Height 18–24" · Deer Resistant

ALL VARIETIES · 1

Lemon Balm
102

Marjoram Sweet

Oregano Greek

Mint Kentucky Colonel

Lemon Verbena *Aloysia triphylla* 1 variety

Full Sun · Height 72–96" · Deer Resistant

Lemon Verbena **NEW**

Intensely citrus-scented foliage on an upright tender shrub. Used fresh or dried in tea, culinary, and fragrance applications.

Tray Sizes: 102

Marjoram *Origanum majorana* 1 variety

A mild, sweet oregano-like flavor used as a finishing herb, a culinary specialty for kitchen and container programs. Full sun keeps the aromatic oils concentrated. Full Sun · Height 12–18" · Deer Resistant

ALL VARIETIES · 1

Sweet 102

Mint 9 varieties

Mentha spp.

Nine mints, from category anchors to scented specialties. Peppermint and Spearmint carry steady culinary demand; Chocolate, Mojito, and the fruit-scented types add flavor and fragrance range to the program.

Full Sun to Part Sun · Deer Resistant

Spearmint

The workhorse culinary mint, sweet and mild for cooking, teas, mojitos, and garnish. Broadest year-round demand of any mint.

Tray Sizes: 102

Kentucky Colonel **NEW**

A large-leaved spearmint with bold, sweet flavor, the traditional choice for juleps, teas, and culinary use.

Tray Sizes: 102

Pineapple **NEW**

Cream-edged, fruit-scented foliage adds fragrance and ornamental contrast to herb pots and gardens.

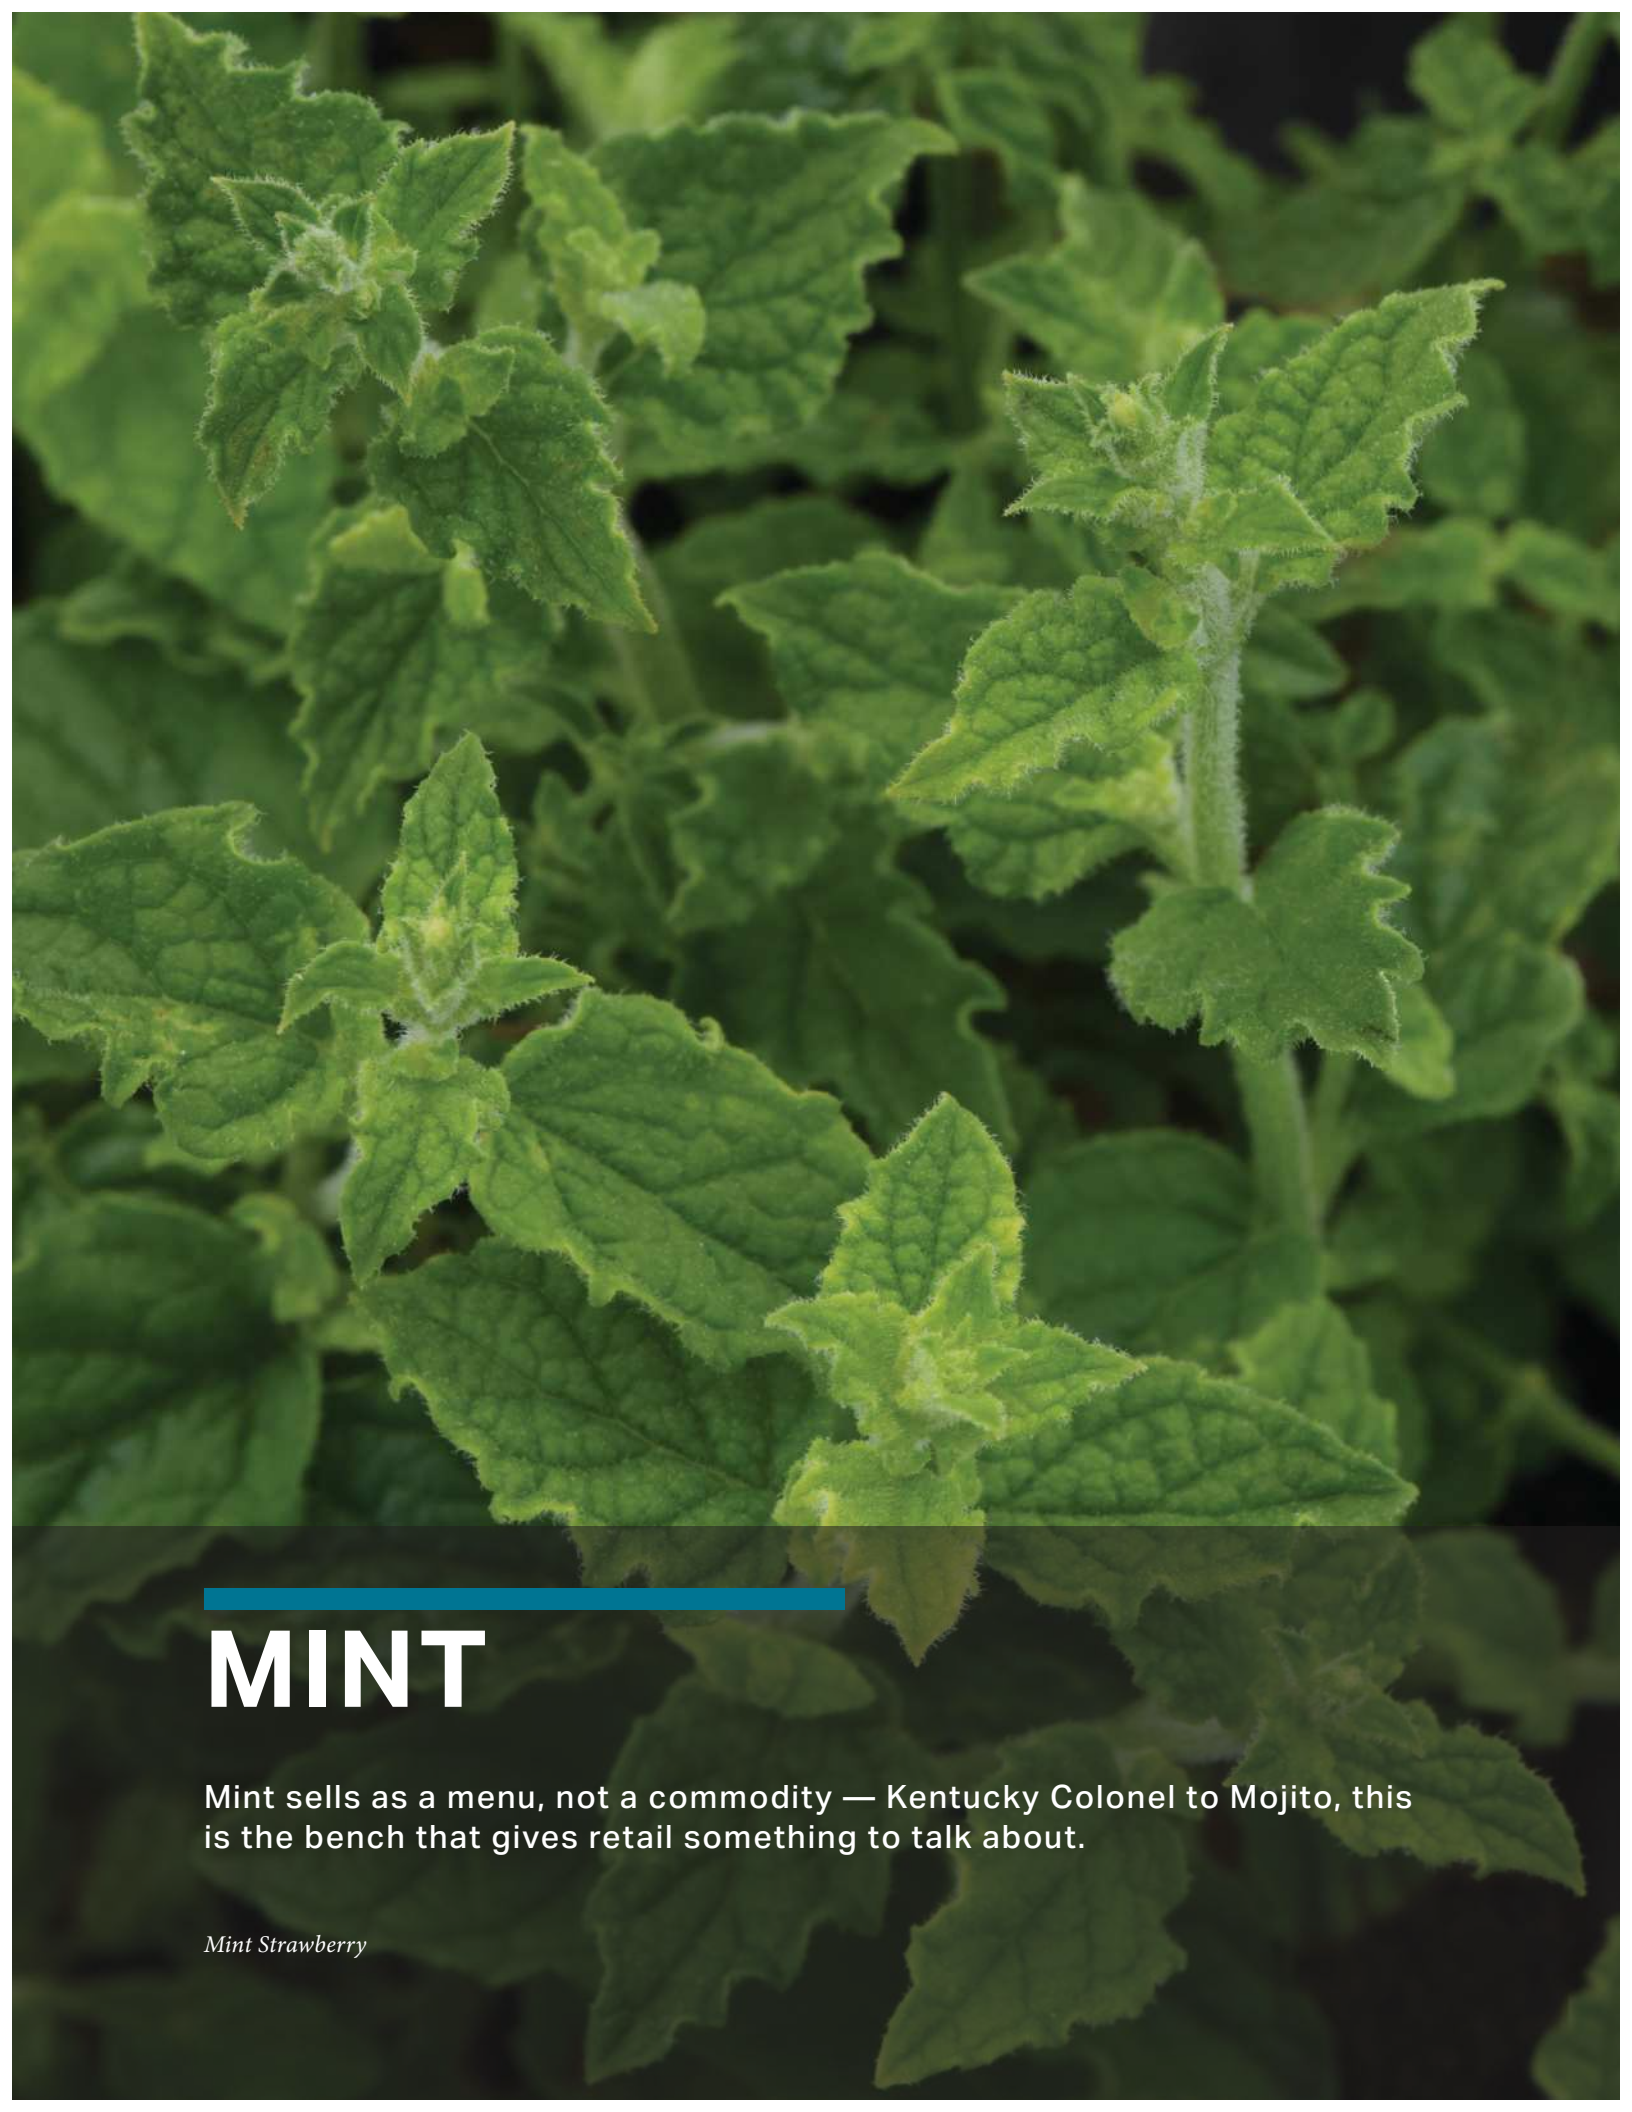

Tray Sizes: 102

Peppermint	102
Strawberry	102

Oregano *Origanum spp.* 4 varieties

Four oreganos covering kitchen, container, and combination use, from Greek's true pizza pungency to Kent Beauty's rose-

MINT

Mint sells as a menu, not a commodity — Kentucky Colonel to Mojito, this is the bench that gives retail something to talk about.

Mint Strawberry

Rosemary Arp

Sage Berggarten

Sage Purpurascens

pink ornamental bracts. Full Sun · Deer Resistant

Hot & Spicy NEW

A pungent culinary oregano with a sharp, peppery bite, forming a vigorous, easy-to-grow mound for kitchen and container use.

Tray Sizes: 72 · 102

Italian NEW

A flavorful culinary type combining marjoram sweetness with classic oregano spice on a tidy, productive plant.

Tray Sizes: 72 · 102

FULL ROSTER · 2 MORE

Greek	102
Kent Beauty	72·102

Rosemary *Salvia rosmarinus* **5 varieties**

Five habits of rosemary: Tuscan Blue's classic column, Arp's Zone-6 hardiness, Barbeque's skewer-straight grilling stems, big-leaved Gorizia, and trailing Prostratus for walls and edges. Full Sun · Deer Resistant

Prostratus NEW

A trailing rosemary that cascades over walls and container edges. Aromatic needled foliage, culinary use, and year-round structure.

Tray Sizes: 72 · 102

FULL ROSTER · 4 MORE

Barbeque	72·102
Gorizia	72·102
Tuscan Blue	72·102

Sage *Salvia spp.* **7 varieties**

Culinary sages in every foliage color. Garden Grey brings the classic flavor and Berggarten the broad silver leaves, while tricolor, golden, and purple types pull double duty as ornamentals.

Full Sun · Deer Resistant

Celebration NEW

An ornamental-leaved culinary sage with colorful foliage on a compact plant, equally at home in herb gardens and mixed containers.

Tray Sizes: 102

Purpurascens NEW

A purple-leaved culinary sage with soft, dusky foliage and full sage flavor. Reads as an ornamental in beds and pots.

Tray Sizes: 102

Tarragon *Artemisia dracunculus* 1 variety

The true culinary tarragon — mild, sweet anise flavor, and the type called for in classic French cooking. Full Sun · Height 18–24" · Deer Resistant

ALL VARIETIES · 1

French	72-102
--------	--------

Thyme 10 varieties

Thymus spp.

Upright culinary thymes and flowering creepers in one program. English and French anchor the kitchen side; five new creeping types carpet paths and borders in pink, red, and silver.

Full Sun · Deer Resistant

Elfin **NEW**

A dense, dwarf creeping thyme that forms a tight aromatic mat, ideal for crevices, troughs, and between stepping stones.

Tray Sizes: 102

Gold Lemon **NEW**

A citrus-scented creeping thyme with bright gold-variegated foliage, lending color and fragrance to edging and containers.

Tray Sizes: 102

Pink Chintz **NEW**

A low, spreading thyme that carpets itself in soft pink flowers. Bees work it hard, and it takes light foot traffic.

Tray Sizes: 102

Red Creeping **NEW**

A tough, mat-forming groundcover smothered in rosy flowers. Holds between pavers and along dry, sunny edges.

Tray Sizes: 102

Silver King **NEW**

A silver-variegated culinary thyme that brings bright foliage and classic flavor to herb gardens and ornamental plantings.

Tray Sizes: 102

The People Behind Our Success

Our success is rooted in the dedication of every Kube-Pak team member who works to keep our business running. Our grower team combines horticultural expertise and hands-on care to cultivate healthy, high-quality plants. Our sales team works closely with the customers we serve to understand their unique needs and help them plan a successful season.

Behind it all, our office and greenhouse staff ensure every order is processed and shipped with great care so our customers can trust us as a reliable partner they can grow with. We're grateful for this shared commitment that has made Kube-Pak a trusted name in the greenhouse industry for many years.

OUR BREEDING PARTNERS

These are the breeding programs behind the plants. 840 of our 1,191 ornamental series come from a named breeder, and that attribution is printed on the entry itself — the balance are open-pollinated or public-domain varieties.

 165 series in this catalog	 142 series in this catalog	 98 series in this catalog
 83 series in this catalog	 59 series in this catalog	 51 series in this catalog
